Handbook Of Mottoes With Supplement:

The Words We Live By Brian Burrell, 2011-08-09 At one time this nation held a profound and simple faith in the power of words Today we have become so engulfed in public cynicism that the whole notion of words to live by seems to us impossibly naive Brian Burrell's splendid collection shows that many of the phrases we once lived by can still have resonance today A comprehensive fascinating treasure trove of American common sense and whimsy The Words We Live By presents a sentimental rediscovery of a lost era in American history From fraternal loyalty oaths to marriage vows corporate mottoes to monument inscriptions Ben Franklin to Henry Ford Americans for generations have committed their most cherished ideals to print often in charming and plain spoken language that perfectly represents our provincial pragmatic and romantic national character Burrell's work was inspired by his father an obsessive collector of words and a chronic nostalgia buff who traveled widely with his family introducing them to the landmarks monuments and other symbols of America's past Throughout his life he clipped or wrote down memorable phrases quotes mottoes and quips both the silly and the profound the playful and the maudlin Burrell has lovingly compiled his father's collection of scrapbooks complementing them with extraordinary research into the origins of America's civic ethics to produce a truly memorable and inspirational work of historical reference More than just a compendium of classic American wit and wisdom The Words We Live By brings this material to life with poignantly told stories forgotten anecdotes and deeply considered meditations on the meaning of the words that have shaped the American nation

during the period 1805 1810 and finally looks at the evidence supporting an attribution of the decoration to Billingsley The case study sets out a novel approach to understanding heraldic devices on ceramics by bringing together the disciplines of detailed genealogical research cultural knowledge and chemical analytical compositional data This multidisciplinary approach enables the armorial services to be considered and understood through the lens of heritage culture and science
