## HANDBOOK OF VISUAL PERCEPTUAL TRAINING

The authors present here a unique guide to programming for alleviation of visual perceptual dysfunction. The suggested activities involve the entire realm of sensory modalities and are developed from motor-perceptual functioning. The training consists of sequentially ordered tasks and moves from gross to fine motor activities and from use of concrete objects to methods of abstraction. Sound educational objectives are within each purpose. The training objectives have been developed to include all aspects of speech and language development.
