The Legal and Economic Analysis of the WTO/FTA System Dukgeun Ahn, 2016-02-29

The Legal and Economic Analysis of the WTO FTA System presents a collation of interdisciplinary studies covering a wide range of issues from WTO dispute settlement issues to trade remedy systems and FTA negotiations. The author applies legal as well as economic rationales and methods to analyze core issues in the world trading system and in doing so sheds an interesting light on various trade issues. The interdisciplinary analysis on WTO and FTA issues provides a unique opportunity to reconsider many conventional trade topics. For instance, the author shows that third country dumping rarely used in the GATT WTO system may have a new role with economic incentives in the context of FTAs.

EU Trade Defence Law and Practice Christoph Herrmann, Patricia Trapp, 2023-02-22

The European Union is one of the most outward oriented economies in the world and free trade is one of its founding principles. As such instruments intended to ensure that international trade is conducted on a level playing field have been part of the EU s policy toolbox since the beginning of European integration. Adapting to the current changes in international trade these instruments have since undergone major reforms. This work provides an overview of the EU s legal framework on the use of its trade defence instruments in particular measures under the Trade Barriers Regulation, the Basic Anti Dumping Regulation and the Basic Anti Subsidy Regulation. The book shares valuable insights into how EU institutions currently apply these instruments and places their application in the broader political context in which international trade takes place, which has been shaped e.g. by developments related to the United Kingdom s withdrawal from the EU and the ongoing blockade of the
