Middle English Medical Recipes and Literary Play, 1375-1500 Hannah Bower, 2022-03-21 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations

Middle English Medical Recipes and Literary Play 1375-1500 is the first detailed book length study of Middle English medical recipes in their literary imaginative social and codicological contexts Analysing recipe collections in over seventy late medieval manuscripts this book explores how the words and structures of recipes could contribute to those texts healing purpose but could also confuse impede exceed and redefine that purpose The study therefore presents a challenge to recipes traditional reputation as mundane unartful texts written and read solely for the sake of directing practical action Crucially it also relocates these neglected texts and overlooked manuscripts within the complex networks forming medieval textual culture demonstrating that though marginalized in modern scholarship medical recipes were actually linguistically formally materially and imaginatively interconnected with many other late medieval discourses including devotional writings romances fabliaux and Chaucerian poetry The monograph thus models for readers modes of analysis and close reading that might be deployed in relation to recipes in order to understand better their allusive fragmentary and playful qualities as well as their wide ranging influence on medieval imaginations

Supplement to the Index of Middle English Verse Russell Hope Robbins, John L. Cutler, 2014-07-15 Russell Hope Robbins collaborated with Carleton Brown in the publishing of the Index of Middle English Verse in 1943 With John L. Cutler associate professor of English in the University of Kentucky he has now compiled a supplement to the Index incorporating those texts published since 1943 At the same time the two have completely revised the Index by including in the Supplement texts previously neglected The number of entries has been increased to 6 000 and more than half of the 4 500 original entries have been revised In addition to this basic revision the appendices of the Index have been corrected and enlarged especially the listing and locating of privately held manuscripts Cross references have been inserted abundantly to facilitate easy use of the combined works Additionally reference has been made to related specialized studies The large number of new entries is attributable not only to prolonged manuscript research but also to a broadening of the original criteria for the inclusion of poems Rather than cutting off entries at 1500 which the authors felt impaired the usefulness of the original Index Robbins and Cutler included genres that had not concluded but continued into the sixteenth century as well as poems with uncertain dates they felt would be important for scholars The Supplement overcomes these barriers by including the so called Scottish Chaucerians the late fifteenth and early sixteenth century manuscripts such as the Tudor songbooks verse items of only two lines and tombstone and church bras epitaphs

W. Bateson, 2017-09-04 At first glance A Guide to English Literature may seem to be no more than a short bibliography of English literature with perhaps rather more extensive and certainly more outspoken comments on the principal editions commentaries biographies and critical works than bibliographies usually provide But it is something more this guide contains long inter chapters that provide reinterpretations of the principal periods of English literature in the light of modern research as well as two final sections summarizing in unusual detail the literary criticism that exists in English and recent scholarship in the field The purpose of this book then is to provide the reader with convenient access to a disciplined study of the texts themselves This guide proposes itself as a new kind of literary history The conventional history of literature has often tended to become a substitute for the reading of the literature it describes the better the history the greater the temptation to substitute it The present combination of reading lists and inter chapters cannot be a substitute for anything else Meaningless as literature in themselves they nevertheless provide the necessary preliminary information to meaningful reading Since oddities of arrangement derive from these assumptions the authors are not arranged alphabetically Instead there are chronological compartments with the divisions circa 1500 1650 and 1800 in which authors succeed each other in the order of their births This pioneering handbook is primarily a bibliographical laborsaving device It is meant mostly for students and the general reader in that it stops where original research by the reader is expected to begin However the last chapter on literary scholarship is devoted specifically to the research specialist and provides indispensable equipment for the reader There is also a general section on literary criticism which will be of use to all **The Cambridge Handbook of English Historical Linguistics** Merja Kytö, Päivi Pahta, 2016-05-03 English historical linguistics is a subfield of linguistics which has developed theories and methods for exploring the history of the English language This Handbook provides an account of state of the art research on this history It offers an in depth survey of materials methods and language theoretical models used to study the long diachrony of English The frameworks covered include corpus linguistics historical sociolinguistics historical pragmatics and manuscript studies among others The chapters by leading experts examine the interplay of language theory and empirical data throughout critically assessing the work in the field Of particular importance are the diverse data sources which have become increasingly available in electronic form allowing the discipline to develop in new directions The Handbook offers access to the rich and many faceted spectrum of work in English historical linguistics past and present and will be useful for researchers and students interested in hands on research on the history of English The Oxford Handbook of Medieval Literature in English Elaine Treharne, Greg Walker, William Green, 2010-04-15 Bringing together the

insights of new fields and approaches with those of more familiar texts and methods this handbook provides a comprehensive overview of the state of Medieval Literature today It discusses texts such as Beowulf Wulf and Eadwacer and Ancrene Wisse and authors from Ifric to Chaucer Langland and the Gawain Poet **The Anglo-Saxon chronicle** D. N. Dumville, Simon Keynes, Simon Taylor, 1983 Part of the Anglo Saxon Chronicle Collaborative Series which now includes editions of the main texts through from A to F This volume offers a new edition of the E text of the Anglo Saxon Chronicle commonly known as the Peterborough Chronicle The E text is of enormous importance in Chronicle studies in its early part it is the best representative of the Northern Recension of the Chronicle in continuing up to the second half of the twelfth century its span is by far the longest of all the versions Even more than other versions of the Chronicle it reflects transitions of vital interest to historians linguists and literary scholars The E text has not been edited in its entirety except as a facsimile for over a century This semi diplomatic edition offers a readable text with modern punctuation and capitalization The interpolated material relating to Peterborough is clearly distinguished from the rest of the text Indices of personal names people names and place names follow the text itself The Introduction includes an account of the manuscript and a linguistic analysis of the E text The E text cannot of course be studied in isolation This volume is part of the Anglo Saxon Chronicle Collaborative Series and with its publication the Series now includes editions of the main texts through from A to F A substantial section of the Introduction to the volume is devoted to a detailed discussion of E's complex textual relationships with the other versions of the Chronicle and also with other relevant documents such as Peterborough Charters and twelfth century Latin chronicles Dr SUSAN IRVINE is Senior Lecturer in the Department of English University College London
