**Handbuch der deutschen Außenpolitik** Hans-Peter Schwarz,1975      **Handbuch der deutschen Außenpolitik** Hans-Peter Schwarz,1975      **Germany's Foreign Policy of Reconciliation** Lily Gardner Feldman,2014-07-16 Since World War II Germany has confronted its own history to earn acceptance in the family of nations Lily Gardner Feldman draws on the literature of religion philosophy social psychology law and political science and history to understand Germany's foreign policy with its moral and pragmatic motivations and to develop the concept of international reconciliation Germany's Foreign Policy of Reconciliation traces Germany's path from enmity to amity by focusing on the behavior of individual leaders governments and non governmental actors The book demonstrates that at least in the cases of France Israel Poland and Czechoslovakia the Czech Republic Germany has gone far beyond banishing war with its former enemies it has institutionalized active friendship The German experience is now a model of its own offering lessons for other cases of international reconciliation Gardner Feldman concludes with an initial application of German reconciliation insights to the other principal post World War II pariah as Japan expands its relations with China and South Korea      **Systemtheoretische Analyse des Einflusses der deutschen Wirtschaft auf die deutsche Außenpolitik** Sven S. Kasper,2009      The Routledge Handbook of German Politics & Culture Sarah Colvin,2014-11-27 The Routledge Handbook of German Politics and Culture offers a wide ranging and authoritative account of Germany in the 21st century It gathers the expertise of internationally leading scholars of German culture politics and society to explore and explain historical pathways to contemporary Germany the current Berlin Republic society and diversity Germany and Europe Germany and the world This is an essential resource for students researchers and all those looking to understand contemporary German politics and culture      Deutsche Außenpolitik Wolfram Hilz,2017-01-18 A quarter of a century after its reunification in 1990 Germany is today facing multiple foreign policy tasks as a result of instabilities among Europe's neighbours global challenges in the increasingly unsettled twenty first century and tensions between the older and newer powers This book traces the development of German foreign policy since 1949 clarifying the paths it has taken and the route it will be following in the twenty first century between semi hegemony and multilateral action making the constant tension between continuity and change clearly understandable in many different ways      The Politics of Military Force Frank A Stengel,2020-12-08 The Politics of Military Force examines the dynamics of discursive change that made participation in military operations possible against the background of German antimilitarist culture Once considered a strict taboo so called out of area operations have now become widely considered by German policymakers to be without alternative The book argues that an understanding of how certain policies are made possible in this case military operations abroad and force transformation one needs to focus on processes of discursive change that result in different policy options appearing rational appropriate feasible or even self evident Drawing on Essex School discourse theory the book develops a theoretical framework to understand how discursive

change works and elaborates on how discursive change makes once unthinkable policy options not only acceptable but even without alternative. Based on a detailed discourse analysis of more than 25 years of German parliamentary debates, *The Politics of Military Force* provides an explanation for 1 the emergence of a new hegemonic discourse in German security policy after the end of the Cold War, 2 the rearticulation of German antimilitarism in the process of ideational change, norm erosion, and 3 the resulting making possible of military operations and force transformation policy change. In doing so, the book also demonstrates the added value of a poststructuralist approach compared to the naive realism and linear conceptions of norm change so prominent in the study of German foreign policy and International Relations more generally.

**Discourse, Use of Military Force and Role of State** Xiaoshan Ni, 2022-11-25. As the prototype of the civilian power, Germany has always stressed the importance and necessity of diplomatic means to resolve crises. The participation of the Bundeswehr in the International Security Assistance Force (ISAF) in Afghanistan was a significant exercise of the new security policy after German reunification. Given that linguistic actors construct knowledge through their personal actions, security policy is necessarily reflected in the relevant discourses of political elites. This publication attempts to combine Linguistic Discourse Analysis and Role Theory to construct a role-theoretic discourse analysis approach for German security policy study. The parliamentary debate is a prerequisite for the legitimizing mandate for the use of the German military abroad. The *topos topoi* and pro and contra arguments construct the parliamentary debate discourse and influence decisions on military action abroad. The use of the *topos topoi* and arguments is constructed by the role perceptions of the German political elite, and the final decisions are the result of behavioral preferences influenced by role perceptions.

*Discourse and Affect in Foreign Policy* Jakub Eberle, 2019-05-01. Foreign and security policy have long been removed from the political pressures that influence other areas of policymaking. This has led to a tendency to separate the analytical levels of the individual and the collective. Using Lacanian theory, which views the subject as ontologically incomplete and desiring a perfect identity which is realised in fantasies or narrative scenarios, this book shows that the making of foreign policy is a much more complex process. Emotions and affect play an important role even where hard security issues such as the use of military force are concerned. Eberle constructs a new theoretical framework for analysing foreign policy by capturing the interweaving of both discursive and affective aspects in policymaking. He uses this framework to explain Germany's often contradictory foreign policy towards the Iraq crisis of 2002-2003 and the emotional even existential public debate that accompanied it. This book adds to ongoing theoretical debates in International Political Sociology and Critical Security Studies and will be required reading for all scholars working in these areas.

**Regional and International Relations of Central Europe** Zlatko Šabić, P. Drulák, 2012-09-18. Focused on the role of Central Europe in international politics at the turn of the 20th century, the authors take stock of the knowledge about the discipline of IR, enhance the visibility of scholars from Central Europe, and fill the void which has emerged after several researches on Central Europe were completed in the 1990s.

### **Entscheidungsprozess der F„lle Kosovo, Afghanistan, Irak und Libyen** Nik Milosevic, 2012-06 Ziel dieser

Untersuchung ist eine Analyse der Einflussfaktoren die in der deutschen Außenpolitik dazu führen dass sich Deutschland seit der Wiedervereinigung an Kriegen im Rahmen internationaler Interventionen beteiligt bzw nicht beteiligt Dies soll beispielhaft anhand der Kriege im Kosovo in Afghanistan im Irak und in Libyen demonstriert werden Lsst sich ein außenpolitisches Gesamtbild aus den Ergebnissen herleiten Welche Entscheidungskriterien konnten die jeweils beteiligten Bundesregierungen angelegt haben und welche Einflussfaktoren spielten dabei eine Rolle An den vier Kriegen der letzten Jahre hatte sich Deutschland einmal ohne Kosovo und einmal mit UN Mandat Afghanistan an einem Krieg beteiligt sowie sich einer Kriegsbeteiligung einmal ohne UN Mandat Irak und einmal mit UN Mandat Libyen verweigert Eine Kriegsbeteiligung nur auf der Grundlage von UN Mandaten kann also als Kriterium nicht gelten Auch wenn man den Einsatz der NATO zur Voraussetzung einer deutschen Kriegsbeteiligung erhoben hätte ergäbe dies im Falle Libyens kein Erklärungsmuster Vor den Kriegen im Kosovo Afghanistan Irak und Libyen fanden jeweils Bundes und Landtagswahlen statt die aber die Entscheidung zur Kriegsbeteiligung davon nicht durchgängig abhängig machten Auch hier ist kein Muster in der Entscheidungslogik erkennbar Sind es vielleicht die Menschenrechte in einer menschenrechtsorientierten Außenpolitik die für die politischen Entscheidungsstrategien als Maßstab gelten Aber auch vor diesem Hintergrund ist kein klares Muster in den Entscheidungskriterien der Akteure erkennbar da die Verletzung von Menschenrechten in allen vier Kriegen als Teil der Interventionsgründe zu sehen sind Dieses unklare Bild deutscher Außenpolitik lässt auf den ersten Blick kaum nachvollziehbare Rückschlüsse zu aus welchen außenpolitischen Gründen sich Deutschland nach seiner Wiedervereinigung an Kriegen beteiligt Das besondere Erkenntnisinteresse besteht also darin die Beteiligung oder Nichtbeteiligung Deutschlands an internationalen Interventionen dahingehend zu analysieren ob sich hinter jeder Entscheidung ein Muster verbirgt das beispielsweise Grundlinien deutscher Außen und Sicherheitspolitik widerspiegelt die auf klar definierte Prinzipien und Interessen deutscher Politik beruhen

**The Oxford Handbook of German Politics** Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022-07-18 Few countries have caused or experienced more calamities in the 20th century than Germany The country emerged from the Cold War as a newly united and sovereign state eventually becoming Europe's indispensable partner for all major domestic and foreign policy initiatives This handbook provides a comprehensive overview of some of the major issues of German domestic politics economics foreign policy and culture by leading experts in their respective fields This book serves primarily as a reference work on Germany for scholars and an interested public but through this broader lens it also provides a magnifying glass of global developments which are challenging and transforming the modern state The growing importance of Germany as a political actor and economic partner makes this endeavor all the more timely and pertinent from a German European and global perspective Politische Entscheidungsprozesse und multinationale Militäreinsätze Nik Milosevic, 2018-06-11

**Emerging Powers in Global Governance** Andrew F. Cooper, Agata Antkiewicz, 2010-10-30 The early twenty first century has seen the beginning of a considerable shift in the global balance of power Major international governance challenges can no longer be addressed without the ongoing cooperation of the large countries of the global South Brazil Russia India China South Africa ASEAN states and Mexico wield great influence in the macro economic foundations upon which rest the global political economy and institutional architecture It remains to be seen how the size of the emerging powers translates into the ability to shape the international system to their own will In this book leading international

relations experts examine the positions and roles of key emerging countries in the potential transformation of the G8 and the prospects for their deeper engagement in international governance The essays consider a number of overlapping perspectives on the G8 Heiligendamm Process a co operation agreement that originated from the 2007 summit and offer an in depth look at the challenges and promises presented by the rise of the emerging powers Co published with the Centre for International Governance Innovation Adenauer's Foreign Office Thomas Maulucci,2012-11-15 The creation of the Foreign Office under Adenauer tells us much about the possibilities and limits of professional diplomacy in the mid twentieth century It also demonstrates three themes central to the early history of the Federal Republic the integration of the new state into the international community the cooptation of German elites and traditions by the new political system and the creation of government in a state under foreign occupation In this important study Thomas Maulucci argues that despite an improvised start and a considerable continuity of practice and personnel with pre 1945 Germany the changed international and domestic situation proved decisive in creating a ministry that could help to implement new directions in German foreign policy In addition Maulucci explores the interactions between international political and social history contributing to a literature that bridges the gap between the pre and post World War Two eras that characterized previous writing on German history Based on extensive research in German American British and French archives Adenauer s Foreign Office is the only English language book of its kind The troubling question of personnel continuity in the German diplomatic service is of considerable importance today especially because of the Foreign Office s previous attempts to portray its past in the best possible light Of interest to scholars and students of German history and politics as well as non specialists this book provides new insights into post war diplomacy the sociology of German elites and the problems involved in creating a new government after losing a major war *Konrad Adenauer* Hans-Peter Schwarz,1995 **German Foreign Policy Towards Emerging Powers** Tomasz Morozowski,2024-10-06 This book examines the complex process of German foreign policy adaptation to a shifting global landscape especially to the rise of new powers Addressing a scholarly audience the book sheds light on the evolution of Germany s post reunification international role beyond the Euro Atlantic structure Grounded within the theoretical framework of neoclassical realism the book analyzes the inner workings of Germany s global policy formation It scrutinizes the state s relations with rising and emerging powers including China Brazil India South Africa Mexico Vietnam Indonesia Nigeria Saudi Arabia and the United Arab Emirates exploring the details of Berlin s approach The book presents the motives goals instruments and future prospects of Germany s foreign policy regarding these states It further explores the dynamics of Germany s civilian and economic power while addressing the growing call for increased responsibility within the European Union as well as in global politics Readers will gain insight into the foundations tools and effectiveness of Germany s foreign policy providing a quintessential case study of how a European state navigates the challenges of a rapidly changing global landscape This makes the book a must read for researchers specializing in German studies as well as for scholars of

international relations and foreign policy      Die "Politik der Elbe" Hartmuth Brill, 2014-07-31 Die Staatsexamensarbeit aus dem Jahr 1984 beschreibt und analysiert auf 140 Seiten ein spannendes Kapitel bundesdeutscher Nachkriegsgeschichte Hamburg verlor in der Folge des 2. Weltkriegs seine Handelsbeziehungen in den ostdeutschen und osteuropäischen Raum. Der Senat unter dem CDU-Bürgermeister Sieveking betrieb eine sehr aktive Ostpolitik, die sog. Politik der Elbe. Der Hafensenator Erich Plate nutzte den Spielraum vor dem Hintergrund der bundesdeutschen Westbindung unter Kanzler Adenauer und Außenminister von Brentano extensiv, um die Wirtschaftsbeziehungen zur DDR und den osteuropäischen Staaten aufzubauen. In einem Resümee über die Politik der Elbe stellte Erich Plate 1958 noch erneut fest, dass die Politik des Sieveking-Senats ein Angebot geblieben sei, das in Mitteleuropa mit Ausflüchten beantwortet worden sei, aber auch der Westen habe mangelnde Bereitschaft zur Unterstützung gezeigt. Mit ein wenig Abstand sah Phase 1967 dann die Politik der Elbe deutlich positiver und beschrieb sie als Pioniertat.
