Handel Master Musicians:

Handel Donald Burrows,1994 Donald Burrows's new biography relates Handel's life and his music devoting particular attention to two crucial junctures in Handel's development his transition from a church trained musician in Germany to a successful opera composer in London and the gradual transformation of his theatre career from opera to oratorio some thirty years later In the oratorio form as Burrows demonstrates Handel was able to combine the techniques of large scale construction and of aria writing that he had developed in his operas with an experience of choral music that went back to his earliest training as a church organist The result was music that succeeds to this day in capturing the imagination of a vast audience **Handel**, *Master Musicians* James Cuthbert Hadden,1909 **Handel rev. 75** Percy M. Young,1975

Handel Donald Burrows,1996 George Frideric Handel was a defining figure of the late Baroque era shaping its music for the theatre in much the same way J S Bach dominated the writing of music for use in church Perhaps best known for bringing the oratorio form to an English speaking audience with masterworks such as Messiah Handel also had a distinguished career as a composer of Italian operas and furthermore found time to influence the development of orchestral music by writing such works as the Water Music and Music for the Royal Fireworks Donald Burrows's new biography relates Handel's life and his music devoting particular attention to two crucial junctures in Handel's development his transition from a church trained musician in Germany to a successful opera composer in London and the gradual transformation of his theatre career from opera to oratorio some thirty years later In the oratorio form as Burrows demonstrates Handel was able to combine the techniques of large scale construction and of aria writing that he had developed in his operas with an experience of choral music that went back to his earliest training as a church organist The result was music that succeeds to this day in capturing the imagination of a vast audience The last half century has seen Handel take a major place in modern musical scholarship This book takes into account not only recent knowledge of historical sources and significant studies of Handel's major works but also research on Handel's borrowing practices his habit of using the existing musical ideas of other composers as well as his own Yet Handel remains unsurpassed as one of the greatest compositional architects in the history of Western music with a sure instinct for both balance and originality in the final result In this insightful study Donald Burrows brings to life not only the glory of Handel's artistry but also his sometimes elusive personality and the flavour of the times and places in which he lived **The Master of the Musicians** Emma Marshall,1896 *Master Musicians* James Cuthbert Hadden,1913

Handel's Israelite Oratorio Libretti Deborah W. Rooke,2012-02-23 Handel's Israelite oratorios are today little known among non specialists but in their own day they were unique pioneering and extremely popular Dating from the period 1732 1752 they combine the musical conventions of Italian opera with dramatic plots in English that are adaptations of Old Testament narratives They constitute a form of biblical interpretation but to date there has been no thoroughgoing study of the theological ideas or the attitudes towards the biblical text that might be conveyed in the oratorios libretti This book aims

to fill that gap from an interdisciplinary perspective Combining the insights of present day biblical studies with those of Handelian studies Deborah W Rooke examines the libretti of ten oratorios Esther Deborah Athalia Saul Samson Joseph and his Brethren Judas Macchabaeus Solomon Susanna and Jephtha and evaluates the relationship between each libretto and the biblical story on which it is based Rooke comments on each biblical text from a modern scholarly perspective and then compares the modern interpretation with the version of the biblical narrative that appears in the relevant libretto Where the libretto is based on a prior dramatic or literary adaptation of the biblical narrative she also discusses the prior adaptation and how it relates to both the biblical text and the corresponding oratorio libretto In this way the distinctive nuances of the oratorio libretti are highlighted and each libretto is then analysed and interpreted in the light of eighteenth century religion scholarship culture and politics The result is a fascinating exploration not only of the oratorio libretti but also of how culture and context determines the nature of biblical interpretation **The Master of the Musicians** Emma Marshall,1897
