The Difference that Disability Makes Rod Michalko, 2002 Rod Michalko launches into this book asking why disabled people are still feared still regarded as useless or unfit to live not yet welcome in society Michalko challenges us to come to grips with the social meanings attached to disability and the body that is not normal Michalko's analysis draws from his own understanding of blindness and narratives by other disabled people Connecting lived experience with social theory he shows the consistent exclusion of disabled people from the common understandings of humanity and what constitutes the good life He offers new insight into what suffering a disability means to individuals as well as to the polity as a whole He shows how disability can teach society about itself about its determination of what is normal and who belongs Guiding us to a new understanding of how disability difference and suffering are related this book enables us to choose disability as a social identity and a collective political issue The difference that disability makes can be valuable and worthwhile but only if we choose to make it so Author note Rod Michalko is Associate Professor of Sociology at St Francis Xavier University He is the author of *The Mystery of the Eye and the Shadow of Blindness* 1998 and *The Two in One Walking with Smokie Walking with Blindness* Temple 1999
