**Handicapped Children and Youth** Helen M. Wallace,1987      **Maternal and Child Health Research Program** ,1993

**A Quarter-century of Normalization and Social Role Valorization** Robert John Flynn,Raymond A. Lemay,1999

During the late 1960s Normalization and Social Role Valorization SRV enabled the widespread emergence of community residential options and then provided the philosophical climate within which educational integration supported employment and community participation were able to take firm root This book is unique in tracing the evolution and impact of Normalization and SRV over the last quarter century with many of the chapter authors personally involved in a still evolving international movement Published in English      **Families and Mental Retardation** Diane Marsh,1992-05-27 Traditional

pathology models do not provide a satisfactory framework for professional practice with families of people with mental retardation Families and Mental Retardation is written from the perspective of a competence paradigm for professional practice which offers a constructive alternative to the more prevalent pathology models of the past The goal of professional practice is to empower families in coping with the catastrophic stressor of mental retardation Such an approach recognizes the strengths and resources of families which have often been minimized in the past and fosters new collaborative modes of family professional relationships Unique features include a consideration of life span and family system and subsystem perspectives as well as the inclusion of powerful personal accounts of family members The volume is likely to be of special value to mental health and health care professionals who often receive little training in mental retardation or family professional relations and who tend to apply a pathology model In contrast a competence paradigm is more prevalent in education
