Le droit de la famille dans sa dimension civiliste fortement ancré dans les cultures nationales des tats membres est une matière qui ne relève pas en principe du droit de l'Union européenne Pourtant il n'est plus possible d'affirmer que la matière échappe dans son entier au droit de l'Union De nombreux aspects de la famille sont sous influence européenne au point que l'on voit se dessiner les contours d'une famille européenne L'ouvrage propose de mettre en lumière l'acquis européen en matière de droit de la famille au prisme du droit matériel citoyennet européen politique sociale de l'Union fonction publique européenne comme du droit international privé Le droit de la famille de l'Union s'identifie alors comme un droit spécial complétant la diversité des droits nationaux de la famille Sa signification théorique et politique dans l'Union est débattue par les auteurs autant que son devenir

Loin de demeurer fragmentaire c t des droits nationaux des tats membres il a probablement vocation se densifier pour offrir aux citoyens et r sidents europ ens un droit commun de la famille au sein de l Union Family law with its civil law tradition and strong roots in the national cultures of the Member States does not normally fall within the scope of European law However it is no longer possible to argue that family law is outside European law entirely There are many aspects of the family which are subject to European influence to the point that the outlines of a European family are starting to emerge This book is intended to highlight the European experience of family law and its substantive i e European citizenship EU social policy EU civil service and private international law aspects Union law therefore contains a form of special family law which is shared between the Member States and supplements their national family laws Its theoretical and political importance in the Union as well as its future are discussed by the authors Far from remaining fragmented alongside the national laws of Member States it will likely develop to offer European citizens and residents a common family law within the EU

*The Women of CourtWatch* Carole Bell Ford,2010-01-01 Houston was a terrible place to divorce or seek child custody in the 1980s and early 1990s Family court judges routinely rendered verdicts that damaged the interests of women and children In some especially shocking cases they even granted custody to fathers who had been accused of molesting their own children Yet despite persistent allegations of cronyism incompetence sexism racism bribery and fraud the judges wielded such political power and influence that removing them seemed all but impossible The family court system was clearly broken but there appeared to be no way to fix it This book recounts the inspiring and courageous story of women activists who came together to oppose Houston s family court judges and whose political action committee CourtWatch played a crucial role in defeating five of the judges in the 1994 judicial election Carole Bell Ford draws on extensive interviews with Florence Kusnetz the attorney who led the reform effort and other CourtWatch veterans as well as news accounts to provide a full history of the formation struggles and successes of a women s grassroots organization that overcame powerful political interests to improve Houston s family courts More than just a local story however this history of CourtWatch provides a model that can be used by activists in other communities in which legal and social institutions have gone astray It also honors the heroism of Florence Kusnetz whose commitment to the Jewish concept of tikkun olam repairing and improving the world brought her out of a comfortable retirement to fight for justice for women and children
