Hall,D. G. Scragg,2008 The collection opens with Gneuss s Rawlinson Center lecture delivered just a few months prior to the Handlist s publication The lecture is followed by essays by Donald Scragg and Thomas N Hall that examine the scribes contents circumstances of production and intended uses of selected manuscripts from the late Anglo Saxon period Four essays follow by Kees Dekker Rebecca Brackmann Aaron J Kleist and Rolf H Bremmer Jr investigating the fates of Anglo Saxon manuscripts at the hands of sixteenth and seventeenth century antiquaries The resulting collection addresses the concerns of Anglo Saxon manuscript studies today which have been given new energy by the publication of the Handlist *Anglo-Saxon England: Volume 36* Malcolm Godden,Simon Keynes,2008-03-06 Anglo Saxon England embraces all the main aspects of study of Anglo Saxon

history and culture **Anglo-Saxon England: Volume 32** Michael Lapidge, Malcolm Godden, Simon Keynes, 2004-07-05
Throughout the centuries of its existence Anglo Saxon society was highly if not widely literate it was a society the functioning of which depended very largely on the written word All the essays in this volume throw light on the literacy of Anglo Saxon England from the writs which were used as the instruments of government from the eleventh century onwards to the normative texts which regulated the lives of Benedictine monks and nuns to the runes stamped on an Anglo Saxon coin to the pseudorunes which deliver the coded message of a man to his lover in a well known Old English poem to the mysterious writing on an amulet which was apparently worn by a religious for a personal protection from the devil The usual comprehensive bibliography of the previous year s publications in all branches of Anglo Saxon studies rounds off the book

The Anglo-Saxon Library Michael Lapidge, 2006 This invaluable study sets out the evidence for the nature and holdings of libraries in Anglo Saxon England from the sixth century to the eleventh It is furnished with appendices which include editions of all surviving Anglo Saxon book inventories lists of those manuscripts exported from and imported into Anglo Saxon England and a catalogue of all classical and patristic works cited by Anglo Saxon authors The volume is concluded by a comprehensive index combining the evidence of inventories surviving manuscripts and citations of all classical and patristic writings known in England before 1100 **Biblical Epics in Late Antiquity and Anglo-Saxon England** Patrick

McBrine, 2017-06-30 Biblical poetry written between the fourth and eleventh centuries is an eclectic body of literature that disseminated popular knowledge of the Bible across Europe Composed mainly in Latin and subsequently in Old English biblical versification has much to tell us about the interpretations genre preferences reading habits and pedagogical aims of medieval Christian readers Biblical Epics in Late Antiquity and Anglo Saxon England provides an accessible introduction to biblical epic poetry Patrick McBrine s erudite analysis of the writings of Juvencus Cyprianus Arator Bede Alcuin and more reveals the development of a hybridized genre of writing that informed and delighted its Christian audiences to such an extent it was copied and promoted for the better part of a millennium The volume contains many first time readings and discussions of poems and passages which have long lain dormant and offers new evidence for the reception of the Bible in late Antiquity and the Middle Ages Anglo-Saxon England: Volume 30 Michael Lapidge, Malcolm Godden, Simon

Keynes, 2002-07-12 The pre eminence of Anglo Saxon England in its field can be seen as a result of its encouragement of interdisciplinary approaches to the study of all aspects of Anglo Saxon culture Thus this volume includes an important assessment of the correspondence of St Boniface in which it is shown that the unusually formulaic nature of Boniface s letters is best understood as a reflex of the saint s familiarity with vernacular composition A wide ranging historical contextualization of The Letter of Alexander to Aristotle illuminates the way English readers of the later tenth century may have defined themselves in contradistinction to the monstrous unknown and a fresh reading of the gendering of female portraiture in a famous illustrated manuscript of the Psychomachia of Prudentius CCCC 23 shows the independent ways in

which Anglo Saxon illustrators were able to respond to their models The usual comprehensive bibliography of the previous year's publications rounds off the book and a full index of the contents of volumes 26-30 is provided Previous indexes have appeared in volumes 5-10, 15-20 and 25 A Catalogue of Manuscripts Known to Contain Old English Dry-Point Glosses Dieter Studer-Joho, 2017-11-27 While quill and ink were the writing implements of choice in the Anglo Saxon scriptorium other colouring and non colouring writing implements were in active use too The stylus among them was used on an everyday basis both for taking notes in wax tablets and for several vital steps in the creation of manuscripts Occasionally the stylus or perhaps even small knives were used for writing short notes that were scratched in the parchment surface without ink One particular type of such notes encountered in manuscripts are dry point glosses i.e. short explanatory remarks that provide a translation or a clue for a lexical or syntactic difficulty of the Latin text The present study provides a comprehensive overview of the known corpus of dry point glosses in Old English by cataloguing the 34 manuscripts that are currently known to contain such glosses A first general descriptive analysis of the corpus of Old English dry point glosses is provided and their difficult visual appearance is discussed with respect to the theoretical and practical implications for their future study **Working with Anglo-saxon Manuscripts** Gale R. Owen-Crocker, 2009 History *The Oxford History of Classical Reception in English Literature* Rita Copeland, 2016-01-28 The Oxford History of Classical Reception in English Literature OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers' engagement with classical literature casts as much light on the classical originals as it does on the English writers' own cultural context This first volume and fourth to appear in the series covers the years c. 800-1558 and surveys the reception and transformation of classical literary culture in England from the Anglo Saxon period up to the Henrician era Chapters on the classics in the medieval curriculum the trivium and quadrivium medieval libraries and medieval mythography provide context for medieval reception The reception of specific classical authors and traditions is represented in chapters on Virgil Ovid Lucan Statius the matter of Troy Boethius moral philosophy historiography biblical epics English learning in the twelfth century and the role of antiquity in medieval alliterative poetry The medieval section includes coverage of Chaucer Gower and Lydgate while the part of the volume dedicated to the later period explores early English humanism humanist education and libraries in the Henrician era and includes chapters that

focus on the classicism of Skelton Douglas Wyatt and Surrey **Ashgate Critical Essays on Early English**

Lexicographers Christine Franzen, 2017-03-02 Anglo Saxon lexicography studies Latin texts and words The earliest English lexicographers are largely unidentifiable students teachers scholars and missionaries Materials brought from abroad by early teachers were augmented by their teachings and passed on by their students Lexicographical material deriving from the early Canterbury school remains traceable in glossaries throughout this period but new material was constantly added Aldhelm and lfric Bata among others wrote popular much studied hermeneutic texts using rare exotic words often derived from glossaries which then contributed to other glossaries lfric of Eynsham is a rare identifiable early English lexicographer unusual in his lack of interest in hermeneutic vocabulary The focus is largely on context and the process of creation and intended use of glosses and glossaries Several articles examine intellectual centres where scholars and texts came together for example Theodore and Hadrian in Canterbury Aldhelm in Malmesbury Dunstan at Christ Church Canterbury thelwold in Winchester King thelstan s court Abingdon Glastonbury and Worcester **The Oxford History of Classical Reception in**
