Every Day a Nightmare William H. Bartsch, 2010 In December 1941 the War Department sent two transports and a freighter carrying 103 P 40 fighters and their pilots to the Philipines to bolster Gen Douglas MacArthur s Far East Air Force They were then diverted to Australia with new orders to ferry the P 40s to the Philippines from Australia through the Dutch East Indies But on the same day as the second transport reached its destination on January 12 1942 the first of the key refueling stops in the East Indies fell to rapidly advancing Japanese forces resulting in a break in their ferry route and another change in their orders This time the pilots would fly their aircraft to Java to participate in the desperate Allied defense of that ultimate Japanese objective Except for the pilots from the Philippines almost all of the other pilots eventually assigned to the five provisional pursuit squadrons ordered to Java were recent graduates of flying school with just a few hours on the P 40 Only forty three of them made it to their assigned destination the rest suffered accidents in Australia were shot down over Bali and Darwin or were lost in the sinking of the USS Langley as it carried thirty two of them to Java Even those who did reach the secret field on Java wondered if they had been sacrificed for no purpose As the Japanese air assault intensified daily the Allied defense collapsed Only eleven Japanese aircraft fell to the P 40s Author William H Bartsch has pored through personal diaries and memoirs of the participants cross checking these primary sources against Japanese aerial combat records of the period and supplementing them with official records and other American Dutch and Australian accounts Bartsch s thorough and meticulous research yields a narrative that situates the Java pursuit pilots experiences within the context of the overall strategic situation in the early days of the Pacific theater

Fortnight of Infamy John Burton,2013-09-23 While America was preoccupied with the aftermath of Pearl Harbor an even greater tragedy was unfolding across Southeast Asia From Wake Island to Burma the Empire of Japan opened the largest front in the history of warfare an aircraft driven invasion of colonial possessions throughout the Far East that crumbled the entire Western imperial legacy of the nineteenth century Events during the first two weeks of battle set the stage for the greatest military defeats America and Great Britain would suffer during any conflict This book offers the first comprehensive overview of the collapse of Allied air forces during the period between December 8 and 24 1941 Written for a wide audience it gives readers both a cockpit view of the desperate actions that took place and an understanding of why such heavy losses occurred The narrative account includes enough detail and analysis to hold the interest of serious students of Pacific War aviation and enough exciting descriptions of air combat to attract those with little knowledge of the subject Explaining how and why the Japanese were able to win a quick victory John Burton points to U S failures in the concepts for employment of airpower and a significant underestimation of Japanese air mindedness and aviation capabilities failures that resulted in the loss or surrender of more than 200 000 troops at Bataan and Singapore

Beowulf and Other Stories Joe Allard,Richard North,2014-04-23 Beowulf Other Stories was first conceived in the belief that the study of Old English and its close cousins Old Icelandic and Anglo Norman can be a genuine delight covering a period as replete with wonder creativity and magic as any other in literature Now in a fully revised second edition the collection of essays written by leading academics in the field is set to build upon its established reputation as the standard introduction to the literatures of the time Beowulf Other Stories captures the fire and bloodlust of the great epic Beowulf and the sophistication and eroticism of the Exeter Riddles Fresh interpretations give new life to the spiritual ecstasy of The Seafarer and to the imaginative dexterity of The Dream of the Rood and provide the student and general reader with all they might need to explore and enjoy this complex but rewarding field The book sheds light too on the shadowy contexts

of the period with suggestive and highly readable essays on matters ranging from the dynamism of the Viking Age to Anglo Saxon input into The Lord of the Rings from the great religious prose works to the transition from Old to Middle English It also branches out into related traditions with expert introductions to the Icelandic Sagas Viking Religion and Norse Mythology Peter S Baker provides an outstanding guide to taking your first steps in the Old English language while David Crystal provides a crisp linguistic overview of the entire period With a new chapter by Mike Bintley on Anglo Saxon archaeology and a revised chapter by Stewart Brookes on the prose writers of the English Benedictine Reform this updated second edition will be essential reading for students of the period [Human Being @ Risk](#) Mark Coeckelbergh, 2013-02-15

Whereas standard approaches to risk and vulnerability presuppose a strict separation between humans and their world this book develops an existential phenomenological approach according to which we are always already beings at risk Moreover it is argued that in our struggle against vulnerability we create new vulnerabilities and thereby transform ourselves as much as we transform the world Responding to the discussion about human enhancement and information technologies the book then shows that this dynamic relational approach has important implications for the evaluation of new technologies and their risks It calls for a normative anthropology of vulnerability that does not ask which objective risks are acceptable how we can become invulnerable or which technologies threaten human nature but which vulnerability transformations we want To the extent that we can steer the growth of new technologies at all this tragic and sometimes comic project should therefore be guided by what we want to become *Your Forces and How To Use Them* Christian D. The way to the sphere remains defended by devices created long ago forged by members of each race to thwart entry to the mountain's core. Those that wish to defeat the sphere must not only overcome these barriers; they must conquer the mistrust which has flourished during the long period of separation. Human, elf, dwarf, goblin, and delfer must reunite to defeat the obstacles that now protect the sphere. Once inside Sanctum, representatives of each race face the secrets of the ages that once undone will change their lives forever.
