**Visible Speech** John DeFrancis, 1989-06-01 Visible Speech is an attempt to set the record straight about the nature of writing. John DeFrancis, a noted specialist in the Chinese language, shows that writing can be based only upon a sound system and not upon any other linguistic level. He corrects the erroneous views of Chinese writing as pictographic, ideographic, logographic, or morphemic and defends his conclusion that because of these misrepresentations the nature of all writing continues to be misunderstood. Using the writing systems of Sumerian, Egyptian, Arabic, Japanese, Korean, Greek, Mayan, and English among others to illustrate his points, Dr. DeFrancis stresses their basic identity as representatives of visible speech while noting their secondary differences as manifested in their diverse script forms. He proposes a new classification of writing systems based on this theme of diversity and oneness and makes an impassioned case for the essential phonetic component of all writing. This book reflects the author's sound scholarship and novel insights which place it in the forefront with such classics on writing as those by Gelb, Diringer, Cohen, Frier, and Jensen. The readable style aims at a general audience interested in understanding the nature of the symbols that first strike the eye, while the academic research involved makes it an indispensable work for scholars in the many fields related to language and linguistics.

**Lords of the Scrolls: Literary Traditions in the Bible and Gospels** Donald K. Sharpes, 2005 Lords of the Scrolls analyzes ancient literary sources to show how biblical and gospel scribes borrowed and imitated themes from earlier literature to create heroic legends around Hebrew figures and Jesus. Comparisons between the Epic of Gilgamesh, Enuma Elish, Canaanite, Egyptian, and Greek legends, Homeric epics, the histories of Herodotus, and selected biblical and gospel passages reveal thematic and literary similarities. Tracing literary classics from the birth of writing to the first millennium of the modern era, this book demonstrates that Hebrew scribes used previous literature to establish a national identity and that gospel scribes borrowed heavily from Homer to create epic legends around the person of Jesus.

**Gods, Graves & Scholars** C.W. Ceram, 2012-01-18 C.W. Ceram visualized archeology as a wonderful combination of high adventure, romance, history, and scholarship, and this book, a chronicle of man's search for his past, reads like a dramatic narrative. We travel with Heinrich Schliemann as defying the ridicule of the learned world, he actually unearths the remains of the ancient city of Troy. We share the excitement of Lord Carnarvon and Howard Carter as they first glimpse the riches of Tutankhamen's tomb. We discover George Smith when he found the ancient clay tablets that contained the records of the Biblical Flood. We rediscover the ruined splendors of the Hanging Gardens of Babylon, one of the wonders of the ancient world. Chichen Itza, the abandoned pyramids of the Maya, and the legendary Labyrinth of the Minotaur in Crete. Here is much of the history of civilization and the
