Hands to Dance and Skylark Charles Causley, 1979      **Hands to Dance** Charles Causley, 1951      Belonging and Estrangement in the Poetry of Philip Larkin, R.S. Thomas and Charles Causley Rory Waterman, 2016-04-22 Focusing on the significance of place connection and relationship in three poets who are seldom considered in conjunction Rory Waterman argues that Philip Larkin R S Thomas and Charles Causley epitomize many of the emotional and societal shifts and mores of their age Waterman looks at the foundations underpinning their poetry the attempts of all three to forge a sense of belonging with or separateness from their readers the poets varying responses to their geographical and cultural origins the belonging and estrangement that inheres in relationships including marriage the forced estrangements of war the antagonism between social belonging and a need for isolation and finally the charged issues of faith and mortality in an increasingly secularized country

Cecil Sloane-Stanley**, 1893      **Daily Life in the Age of Sail** Dorothy Volo, James M. Volo, 2001-11-30 From the Thirteenth century through the Nineteenth the waterways of the world provided the major means of transportation for exploration trade the military and even criminals Find out what life was like for those who chose to sail the high seas as well as for those who didn't choose to be on board like wives brought to sea by husbands and slaves en route to the auction block What were their quarters like What did they eat How did they pass their long days at sea These and other questions are answered in animated prose that brings the lives of ordinary people who oftentimes engaged in extraordinary activities into sharp focus First hand accounts from such sources as personal journals and magazine articles are provided to help bring the time period alive Students will also learn what life was like in the seaport towns and what the sailors did when they visited these towns as well as the physical parts of the ships and the different roles different members of the crew played This engaging history helps to separate fact from fiction while exploring the reasons the sea and sea life have held such prominent roles in popular fiction and will help students understand what life was truly like for these people

Michael Palin brings the fascinating story of the Erebus and its occupants to life from its construction as a bomb vessel in 1826 through the flagship years of James Clark Ross's Antarctic expedition and finally to Sir John Franklin's quest for the holy grail of navigation a route through the Northwest Passage where the ship disappeared into the depths of the sea for more than 150 years. It was rediscovered under the arctic waters in 2014. Palin travels across the world from Tasmania to the Falkland Islands and the Canadian Arctic to offer a firsthand account of the terrain and conditions that would have confronted the Erebus and her doomed final crew. Delving into the research he describes the intertwined careers of the two men who shared the ship's journeys. Ross the organizational genius who mapped much of the Antarctic coastline and oversaw some of the earliest scientific experiments to be conducted there and Franklin who at the age of sixty and after a checkered career commanded the ship on its last disastrous venture. Expertly researched and illustrated with maps photographs paintings and engravings Erebus is an evocative account of two journeys one successful and forgotten the other tragic yet unforgettable.
