Hankey: Man of Secrets: 1931-1963 Stephen Wentworth Roskill,1972 Britain and Japan Hugh Cortazzi,2025-10-01

Published in association with the Japan Society and containing 57 essays this ninth volume in the series continues to celebrate the life and work of the men and women both British and Japanese who over time played an interesting and significant role in a wide variety of different spheres relating to the history of Anglo Japanese relations and deserve to be recorded and remembered Read together they give a picture even if inevitably a partial one of important facets of modern history and Anglo Japanese institutions They shed light on a number of controversial issues as well as illuminate past successes and failures Structured thematically in four Parts Japan in Britain Britain in Japan Scholars and Writers Politicians and Officials the highlights in this volume include The Great Japan Exhibition 1981 82 Japanese Gardens and the Japanese Garden Society in the UK Cricket in Late Edo and Meiji Japan Norman Macrae pioneering journalist of The Economist Arthur Balfour managing the emergence of Japan as a Great Power Michio Morishima an economist made in Japan Margaret Thatcher a pragmatist who radically improved Britain s image in Japan **Fighting Churchill, Appeasing Hitler** Adrian Phillips,2019-10-08 In Fighting Churchill Appeasing Hitler Adrian Phillips presents a radical new view of the British policy of appeasement in the late 1930s No one doubts that appeasement failed but Phillips shows that it caused active harm even sabotaging Britain s preparations for war He goes far further than previous historians in identifying the individuals responsible for a catalogue of miscalculations deviousness and moral surrender that made the Second World War inevitable and highlights the alternative policies that might have prevented it Phillips outlines how Prime Minister Neville Chamberlain and his chief advisor Sir Horace Wilson formed a fatally inept two man foreign policy machine that was immune to any objective examination criticism or assessment ruthlessly manipulating the media to support appeasement while batting aside policies advocated by Winston Churchill the most vocal opponent of appeasement Churchill understood that Hitler was the implacable enemy of peace and Britain but Chamberlain and Wilson were terrified that any display of firmness would provoke him For the first time Phillips brings to light how Wilson and Churchill had been enemies since an incident early in their careers and how eventually opposing Churchill became an end in itself Featuring new revelations about the personalities involved and the shameful manipulations and betrayals that went into appeasement including an attempt to buy Hitler off with a ruthless colonialist deal in Africa Fighting Churchill Appeasing Hitler shines a compelling and original light on one of the darkest hours in British diplomatic history **The Royal Navy, China Station: 1864 - 1941** Jonathan Parkinson,2018-02-20 A definitive history of the Royal Navy s China Station In the The Navy List for April 1864 the China

Station was first shown as a separate Royal Navy Station It remained as such until the outbreak of the Pacific War in December 1941 which was to signal the end of that era In addition to a precis of the lives and naval careers of each of the Commanders in Chief of the China Station this volume also gives relevant information outlining something of the concurrent internal affairs of China and Japan Both are very different but sad tales the former in decline towards the end of the Manchu Ching dynasty and then into the chaotic 1920 s and 1930 s and the latter increasingly adopting a militaristic attitude which was to result in their disaster of the Pacific War of 1941 1945 As a reminder of these days long gone are interwoven brief references to the British Consular Service This is especially relevant for China and for a shorter period for Japan during that era of extraterritoriality Mention is also made of the British Colonial Service with whom necessarily the Navy worked very closely In addition being one important reason for it all frequent references are made to a few British shipping and trading interests together with those of some other nations All of these areas are linked together to give a definitive history of this very important Royal Navy Station

Britain Confronts the Stalin Revolution Gordon W. Morrell, 2006-01-01 Russian politics like opium seems infallibly to provoke the most fantastic dreams and imaginings on the part of the people who study them E A Walker British Embassy Moscow 1931 In March 1933 the economic section of the Soviet secret police arrested six British engineers employed by the Metropolitan Vickers Electrical Company The arrests provoked a confrontation that brought Anglo Soviet relations to the brink of disaster and resurrected the spectre of the show trials and purges of the technical intelligentsia that had shaken Soviet society from 1928 to 1931 Britain Confronts the Stalin Revolution is the first full length study of the Metro Vickers show trial of 1933 Based upon some new and many underutilized Soviet and British sources Gordon Morrell examines the political economic social legal and cultural dimensions of the only Stalinist political trial of the 1930s that directly engaged a foreign power Morrell explores the roots of the crisis by analyzing Metro Vickers role in the electrification of the USSR and he examines the political economic and diplomatic relations between Britain and the Soviets that gave the crisis its international importance He focusses on the efforts of the British Government to understand and respond to the new Stalinist order and importantly casts new light on the apparent role of the British Industrial Intelligence Centre during the early 1930s Britain Confronts the Stalin Revolution is an accessible original and multidimensional work that makes an important contribution to the study of Anglo Soviet relations

American Intelligence in War-time London Nelson MacPherson, 2003-03-30 Based on OSS records only recently released to US National Archives and on evidence from British archival sources this is a thoroughly researched study of the Office of Strategic Services in London The OSS was a critical liaison and operational outpost for American intelligence during World War II Dr MacPherson puts the activities of the OSS

The Road Less Traveled Philip Zelikow, 2021-03-16 This revealing historical examination looks at the pivotal few months in the middle of the First World War when all sides Germany Britain and America believed the war could have been concluded and changed the course of history Two years into the most terrible conflict the world had ever known the warring powers faced a crisis There were no good military options Money men and supplies were running short on all sides The German chancellor secretly sought President Woodrow Wilson's mediation to end the war just as British ministers and France's president also concluded that the time was right The Road Less Traveled describes how tantalizingly close these far sighted statesmen came to ending the war saving millions of lives and avoiding the total war that dimmed hopes for a better world There was a secret battle that is only now becoming fully understood a story of civic courage awful responsibility and how some leaders rose to the occasion while others shrank from it or chased other ambitions Peace is on the floor waiting to be picked up pleaded the German ambassador to the United States This book explains both the strategies and fumbles of people facing a great crossroads of history The Road Less Traveled reveals one of the last great mysteries of the Great War that it simply never should have lasted so long or cost so much

Biological Weapons Jeanne Guillemin, 2004-12-14 Until the events of September 11 and the anthrax attacks of 2001 biological weapons had never been a major public concern in the United States Today the possibility of their use by terrorists against Western states looms large as an international security concern In *Biological Weapons* Jeanne Guillemin provides a highly accessible and compelling account of the circumstances under which scientists soldiers and statesmen were able to mobilize resources for extensive biological weapons programs and also analyzes why such weapons targeted against civilians were never used in a major conflict This book is essential for understanding the relevance of the historical restraints placed on the use of biological weapons for today's world It serves as an excellent introduction to the problems biological weapons pose for contemporary policymakers and public officials particularly in the United States How can we best deter the use of such weapons What are the resulting policies of the Department of Homeland Security How can we constrain proliferation Jeanne Guillemin wisely points out that these are vitally important questions for all Americans to consider and investigate all the more so because the development of these weapons has been carried out under a veil of secrecy with their frightening potential open to exploitation by the media and government Public awareness through education can help calm fears in today's tension filled climate and promote constructive political action to reduce the risks of a biological weapons catastrophe *Biological Weapons* is required reading for every concerned citizen government policymaker public health official and national security analyst who wants to understand this complex and timely issue

The Grand Deception Tom Curran, 2015-02-05 The century that has elapsed
