important chapters of our history Reviews A brilliant polemic Guardian Full of good stories an illuminating read Spectator A tour de force after which the history of the aircraft industry will never be quite the same again Business History David Edgerton's sure footed essay sees Britain from an unusual perspective His arguments provide sound backing for the idea that modern Britain is as much a warfare state as a welfare one Economist About the author David Edgerton is Hans Rausing Professor at Imperial College London where he was the founding director of the Centre for the History of Science Technology and Medicine He is the author of a sequence of groundbreaking books on 20th century Britain Science Technology and the British Industrial Decline 1870 1970 Warfare State Britain 1920 1970 and Britain's War Machine published by Penguin He is also the author of the iconoclastic and brilliant The Shock of the Old Technology and Global History Since 1900 The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians they have had no difficulty in finding their subject The difficulty rather is that an outpouring of research and writing is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of topical monographic research and presented an interpretation of the development of modern British society since 1750 from three perspectives those of regional communities the working and living environment and social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change **Edwardian England** Donald Read, 1982 The Edwardian era marked a great turning point in modern British history In many spheres it produced the culmination of British power and influence which had been growing rapidly in the nineteenth century Yet it also witnessed the beginnings of the decline which was accelerated through the twentieth century Abroad the British Empire reached its zenith during the Edwardian years but the military challenge of Germany was growing stronger At home the apparently dominant Liberal and Conservative parties were being threatened by a new political force in the Socialists Many misconceptions about the period social economic political and diplomatic have gained currency At one extreme it has been seen as a Golden age shattered by the sudden impact of war in 1914 at the other extreme it has been portrayed as an age of crisis its society already collapsing under pressure of internal problems The ten leading historians who contribute to this collection seek both to remove later misconceptions and to reveal some forgotten contemporary realities They present a vivid portrait of the turmoil and vibrance of British society at the beginning of the twentieth century and suggest ways in which the history of this period has shaped the subsequent development of Britain through this century *British Politics, 1910-1935* David Powell, 2004 This accessible new study provides a much needed guide to the pivotal period of British history between 1910 and 1935 Combines an up to date synthesis of previous work with a re appraisal of the main personalities

Marcuse, 1990-01-01 This text is an introduction to the full range of standard reference tools in all branches of English studies More than 10 000 titles are included The Reference Guide covers all the areas traditionally defined as English studies and all the field of inquiry more recently associated with English studies British and Irish American and world literatures written in English are included Other fields covered are folklore film literary theory general and comparative literature language and linguistics rhetoric and composition bibliography and textual criticism and women s studies **The English Print Trade in the Reign of Edward VI, 1547-1553** Celyn David Richards, 2023-06-26 The protestant reformation was critical to the efflorescence of printing in England between 1547 and 1553 Celyn David Richards explores English print culture during this turbulent period in which an official programme of reform new censorship dynamics and increasingly sophisticated commercial relationships contributed to the trade s rapid expansion Edward VI s reign saw unprecedented levels of religious print production London s first publishing syndicate and a climate of protestant ascendancy which helped English print culture to make up ground on its continental counterparts *Consuming Fantasies* Lise Sanders, 2006 In *Consuming Fantasies* Labor Leisure and the London Shopgirl 1880 1920 Lise Shapiro Sanders examines the cultural significance of the shopgirl both historical figure and fictional heroine from the end of Queen Victoria s reign through the First World War As the author reveals the shopgirl embodied the fantasies associated with a growing consumer culture romantic adventure upward mobility and the acquisition of material goods Reading novels such as George Gissing s *The Odd Women* and W Somerset Maugham s *Of Human Bondage* as well as short stories musical comedies and films Sanders argues that the London shopgirl appeared in the midst of controversies over sexual morality and the pleasures and dangers of London itself Sanders explores the shopgirl s centrality to modern conceptions of fantasy desire and everyday life for working women and argues for her as a key figure in cultural and social histories of the period This study will appeal to scholars students and enthusiasts of Victorian and Edwardian life and literature **BOOK JACKET**
