For Party or Country Frans Coetzee, 1990-06-28 Lord Hugh Cecil commenting in 1912 on the British Conservative party s staying power

said that the party's success was largely a matter of temperament recruited from the natural conservatism that is found in almost every human mind. The Conservatives regarded the parties of the left as faddists or federations of pressure groups. In this thorough analysis Coetzee examines the condition of the Conservative party during the two decades preceding World War I, a transitional period for the party marked by the foundation of an unprecedented number of conservative pressure groups. Cecil's comment Coetzee argues obscures the extent to which conservative pressure groups forced their party to adapt in Edwardian England. The British Navy League, the Tariff Reform League, the Anti-Socialist Union and a host of other groups changed the face of British conservatism though not without considerable internal party conflict. In addition to providing a complete account of the pressure groups' origins, organizations, successes and failures, Coetzee ties their histories to the debates within the Conservative party itself and to the local elections. In so doing, he demonstrates how the party of the right was ultimately able to convince the electorate that its views were more national and patriotic than those of the parties of the left.

British Propaganda and the State in the First World War Gary S. Messinger, 1992. In 1914, advertising was much less sophisticated than it is today; radio was in its infancy, television was undeveloped, telephones were just coming into use, the gargantuan party rallies of Hitler or Mussolini were still in the future, and the idea of using communications media to control the thoughts of an entire population was new, relatively unexplored, and not of interest to governments to any great extent. Propaganda was a part of life before 1914, and the term was coming into increasingly widespread usage. But other institutions of society, such as the church, the press, business, political parties, and philanthropy, were the major producers, not government.

The Strange Survival of Liberal Britain Vernon Bogdanor, 2022-10-20. Masterly. A fascinating tour d'horizon of the Edwardian political scene. This must be a definitive account. Professor Jane Ridley, author of *George V: Never a Dull Moment*. A tour de force, sympathetic in its treatment of the subject, eminently wise in its judgement, and invariably fair in its verdicts. It purrs along like a Rolls Royce engine. Professor T. G. Otte, author of *Statesman of Europe: A Life of Sir Edward Grey*. This brilliant book from Britain's most important constitutional historian upends the orthodoxy about the decadent Edwardians. A masterpiece of intelligent history, both forceful and subtle, which transforms how we view not just those most complex Edwardians but also our own equally complex times. Professor Richard Aldous, author of *The Lion and the Unicorn: Gladstone vs Disraeli*. Brilliant. Instantly the leading history of this turbulent and critical period in Britain's transition towards a modern democracy. Professor Robert Blackburn, King's College London. Vernon Bogdanor has the habit of unearthing gems that have been missed by others. He does it again in this magisterial work on post-Gladstonian Britain by challenging some of the long-established myths about this period that deserve to be cast aside. Professor Malcolm Murrill, King's College London. Professor Bogdanor argues with conviction and sometimes passion but always with judiciousness and in the light of deep reflection. The result is a masterly work which speaks to the politics of our own time. Alvin Jackson, Richard Lodge, Professor of History, University of Edinburgh. An extraordinary exploration of a political world whose dynamics

continue to shape the future of liberal constitutionalism Bruce Ackerman Sterling Professor of Law and Political Science Yale University Crisp authoritative and lucid Nicholas Owen associate professor of politics University of Oxford The turbulent years of 1895 to 1914 changed Britain's political landscape for ever They saw a transition from aristocratic rule to mass politics and heralded a new agenda which still dominates today The issues of the period economic modernisation social welfare and equality secondary and technical education a new role for Britain in the world were complex and difficult Indeed they proved so thorny that despite the efforts of the Edwardians they remain among the most pressing problems we face in the twenty first century The period has often been seen as one of decadence of the strange death of liberal Britain In contrast Vernon Bogdanor believes that the robustness of Britain's parliamentary and political institutions and her liberal political culture with the commitment to rational debate and argument were powerful enough to carry her through one of the most trying periods of her history and so make possible the remarkable survival of liberal Britain In this wide ranging and sometimes controversial survey one of our pre eminent political historians dispels the popular myths that have grown up about this critical period in Britain's story and argues that it set the scene for much that is laudable about our nation today
