Effective Consultation In School Psychology:

Effective Consultation in School Psychology Ester Cole, Jane A. Siegel, 1990 Consultation Don Dinkmeyer, Jr., Carlson Jon, Rebecca E. Michel, 2015-12-22 The methods presented by Don Dinkmeyer Jr, Jon Carlson and Rebecca Michel in *Consultation* are based on the assumption that problems in the home and classroom result not only from the direct actions of disruptive students but also from the expectations of teachers and parents. This newly expanded fourth edition continues the tradition of encouraging change in supposed problem children by helping authority figures recognize and alter the part they may play in exacerbating negative behavior. New additions include two all new chapters on assessment and mindfulness multicultural and diverse case examples as well as access to online video sessions that accompany the text *Becoming a School Consultant* Sylvia Rosenfield, 2012-05-22 Most consultation courses in school psychology focus heavily on theoretical models of consultation and associated intervention procedures. Little time is devoted to developing communication and process skills. Yet these process skills are key to properly identifying student problems and selecting appropriate interventions. Without skillfully conducted consultations, implementation and evaluation of an intervention can be minimal. This book is designed to help students develop the process skills needed to become effective school consultants in consultee centered consultation with special emphasis on the instructional consultation model. The authors address specific skills and issues faced by novice consultants and documents how they worked through particular issues that are likely to occur in school consultation practice *Introduction to School Psychology* Matthew K. Burns, 2019 This book serves as an introduction to the field of school psychology. School psychology has evolved over the course of its existence due to several controversies and how researchers and practitioners responded to those controversies. This text presents those debates and provides needed historical context to explain the field and facilitate deeper understanding in students *Effective School Interventions, Second Edition* Natalie Rathvon, 2008-08-14 This highly practical resource and text presents 70 interventions that have been demonstrated to improve the classroom learning environment, academic achievement, and student behavior and social competence. Each intervention is presented in a brief, standardized format with step by step procedures that can easily be implemented by Pre K-12 teachers and other school based professionals. The volume includes best practice guidelines for designing, implementing, and evaluating evidence based school interventions as well as strategies for combining multiple interventions to create a comprehensive program at the individual class or schoolwide level **School Consultation** William P. Erchul, Brian K. Martens, 2005-12-08 This volume offers a systematic approach to school consultation that differs from those that have been published previously. The authors combine the most useful and empirically validated principles from mental health and behavioral consultation with practices shown to be effective in contemporary consultation research, i.e. behavior analysis, social influence, and implementation support. This second edition also includes expanded coverage on a wide range of topics **Instructional Consultation** Sylvia Rosenfield, 2013-10-14

Recent changes in policy and law along with advances in research are making it necessary for an increasing number of school psychologists special educators and teacher consultants to develop skills in areas other than psychoeducational assessment In response to this need many professionals and students are expanding their careers to include the field of instructional consultation the synthesis of school based consultation techniques and a solid knowledge of effective instructional practices This book examines the major themes of instruction and gives a step by step outline of the consultation process from referral to the final report Recent changes in policy and law along with advances in research are making it necessary for an increasing number of school psychologists special educators and teacher consultants to develop skills in areas other than psychoeducational assessment In response to this need many professionals and students are expanding their careers to include the field of instructional consultation the synthesis of school based consultation techniques and a solid knowledge of effective instructional practices This book examines the major themes of instruction and gives a step by step outline of the consultation process from referral to the final report An Introduction to Consultee-Centered Consultation in the Schools Jonathan H. Sandoval, 2013-12-04 Drawing on historical writings about mental health consultation and on contemporary research and theory Jonathan Sandoval lucidly explains the consultee centered approach to consultation The book provides an expert foundation on which to build a training program for future school based consultants Written for graduate students in school psychology counseling psychology special education and social work this book is an invaluable resource for mental health professionals working in schools who wish to upgrade their professional skills and grow as reflective practitioners Individual chapters describe different stages in the consultation process outline the processes characterized in each stage detail useful consultant skills review pertinent research discuss the ethical principles underlying practice and suggest self monitoring questions for student consultants Featuring a step by step developmental model of the consultee centered consultation process this book encourages consultants to prioritize those characteristics that contribute to a consultee s work difficulty in addition to assessing the client more generally By detailing this unique approach this concise volume provides an applicable contextualized and strategic form of consultation and fosters a professional to professional relationship distinguishable from supervision counseling therapy coaching or other methods
