Effective Leadership Norm Fintel, 2004 This book is to provides a way of thinking about planning and management that will help both individuals and organizations to be more effective in achieving their goals The author focuses on smaller and non profit organizations that do not have the luxury of large and specialized staff He outlines the principles of good management leadership and administration as he helps the reader focus on the ultimate goal of motivating a culture of planning rather than a trust in the Lord mode of administration *Leadership in Non-profit Organization: The Church Model* Dr. Vinay Rananaware, 2017-04-22 It is accepted that Church has contributed a lot in the Management and Administration Christian Priests or the church leaders particularly the Protestant Church leaders Pastors as they are called have to play a vital role in the development of church business In some protestant churches this leadership is of two tiers one is of pastoral leadership and the second is of lay leadership A pastor is a person meant to be an administrator while taking religious care of the congregation Lay leaders Elders as they are called relate with the administrative work of the Church Both of them form a church committee to take care of the church and to see the development of the congregation i e the church members So the congregation can flourish with the enrichment and dynamism of the church leadership *A Guide to Achieving New Heights: the Four Pillars of Successful Nonprofit Leadership* Dennis C. Miller, 2007-08-28 Anybody who manages or sits on the board of a nonprofit organization will find great insight in this book on the four pillars of leadership John McIlquham President NPT Publishing Group Inc Does your nonprofit organization suffer from a non profit mentality Are you too preoccupied with daily challenges to focus on your mission build your vision nurture relationships with constituents and last but not least create a positive operating margin Dennis C Miller has solutions for nonprofit organizations that know they must up their game in a world where they are competing with profit driven institutions for limited talent and resources Miller brings the nonprofit sector squarely into the 21st century and points the way forward showing those who run or work for nonprofits Why much more emphasis should be placed on training and on rewarding high performing employees How all nonprofits must periodically reevaluate their mission to see if it is ambitious enough or perhaps too ambitious Why measuring and then communicating success can enhance fundraising How establishing your brand is as crucial for nonprofits as it is for the Fortune 500 Why you must think of your organization as if it had a stock price that can rise or fall Often people dont realize the potential for taking their nonprofit organization to new heights But by the end of reading Millers guide they will learn to soar They will be able to create a more positive image and a greater demand for their services have more people wanting to become employees board members and volunteers achieve recognition for excellence in their field and see an increase in donors and dollars **The Nonprofit Manager's Resource Directory** Ronald A. The Psychology of Leadership David M. Messick, Roderick M. Kramer, 2004-09-22 In this book some of the world's leading scholars come together to describe their thinking and research on the topic of the psychology of leadership Most of the chapters were originally presented as papers at a research conference held in 2001 at the Kellogg School of Management of Northwestern University The contributions span traditional social psychological areas as well as organizational theory examining leadership as a psychological process and as afforded by organizational constraints and opportunities The editors goal was not to focus the chapters on a single approach to the study and conceptualization of leadership but rather to display the diversity of issues that surround the topic Leadership scholars have identified a host of approaches to the study of leadership What are the personal characteristics of leaders What is the nature of the relation between leaders and followers Why do we perceive some people to be better leaders than others What are the circumstances that evoke leadership qualities in people Can leadership be taught And so on The contributions to this book examine these important questions and fall into three categories conceptions of leadership

factors that influence the effectiveness of leadership and the consequences and effects of leadership on the leader All in all the chapters of this volume display part of a broad spectrum of novel and important approaches to the study of the psychology of leadership We hope that they are equally useful to those who are or would be leaders and to those who study the topic As recent events have served to remind us it is too important a topic to be ignored by psychologists Leadership in Theological Education, Volume 1 Fritz Deininger,Orbelina Eguizabal,2017-04-14 The ICETE Programme for Academic Leadership IPAL was officially established in 2010 and arose out of the need to provide training to theological institutions in different regions of the world IPAL provides a three year cycle of four day seminars for the professional development of evangelical academic leaders to help institutions in their pursuit of quality and excellence This publication is the first of three volumes intended to accompany and support the IPAL seminars as well as independently providing wider access to the principles required by academic leaders for institutional development Each chapter shares and illustrates the contributors expertise in and understanding of education leadership and administration in the field of evangelical academic institutions With an intentional awareness of a wide range of non Western contexts this volume is a much needed guide for senior administrators around the world Resources in Education ,1999-10 **The ^AChurch Leader's Counseling Resource Book** Cynthia Franklin Ph.D.,Rowena Fong,2011-02-01 This all in one guide is designed to better equip clergy to meet their churches needs in a spiritually grounded and scientifically sound manner Succinct easy to read chapters summarize all a pastor needs to know about a given problem area including its signs or symptoms questions to ask effective helping skills and most importantly when to refer to a mental health professional
