It is structured on the assumption that an activity-oriented lesson is the most effective instructional strategy for the teaching of study skills; more succinctly, that learning by doing is the best way to study. Smart Learning and study skills are important for learning. They are methods and ways of doing things that help make learning easier. Just like any other skill, knowing how to learn and study proficiently must be learned and practiced over time. The Program has been designed to help students learn more efficiently and effectively.
