**Seeing Sodomy in the Middle Ages** Robert Mills, 2024-05-31 During the Middle Ages in Europe some sexual and gendered behaviors were labeled sodomitical or evoked the use of ambiguous phrases such as the unmentionable vice or the sin against nature How though did these categories enter the field of vision How do you know a sodomite when you see one In Seeing Sodomy in the Middle Ages Robert Mills explores the relationship between sodomy and motifs of vision and visibility in medieval culture on the one hand and those categories we today call gender and sexuality on the other Challenging the view that ideas about sexual and gender dissidence were too confused to congeal into a coherent form in the Middle Ages Mills demonstrates that sodomy had a rich multimedia presence in the period and that a flexible approach to questions of terminology sheds new light on the many forms this presence took Among the topics that Mills covers are depictions of the practices of sodomites in illuminated Bibles motifs of gender transformation and sex change as envisioned by medieval artists and commentators on Ovid sexual relations in religious houses and other enclosed spaces and the applicability of modern categories such as transgender butch and femme or sexual orientation to medieval culture Taking in a multitude of images texts and methodologies this book will be of interest to all scholars regardless of discipline who engage with gender and sexuality in their work

**Hieronymus Bosch's The Garden Of Earthly Delights** Meinhard Michael, 2018-07-11 It is wonderful you will be able to understand *The Garden of Earthly Delights* Hieronymus Bosch's famous painting is explained here as an enjoyable theological essay The painter did not create a Find the Hidden Objects puzzle at all because even the smallest detail has its function and its precisely appropriate placement The emphasis will be on a dream and what can be learnt from it on the senses and on perception and on imagination and on the commandment to control the senses The soul and its mystical marriage to God are integral to the discussion as well as human sexuality both within marriage and for its own sake Furthermore we will explore self knowledge humility and pride free will and grace and God's love Its converse can be found in Hell in an ugly polemic employing a catalogue of anti Jewish motifs To unravel the meaning of the *Garden of Earthly Delights* is not to detract from the painting's enchantment Its aesthetic and intellectual beauty will in fact fascinate even more than before because of the ambition of its discovered allegorical meaning

Bloch, 2016-02-09 This book examines the heretofore unsuspected complexity of Lorenzo Ghiberti's sculpted representations of Old Testament narratives in his Gates of Paradise 1425-52 the second set of doors he made for the Florence Baptistery and a masterpiece of Italian Renaissance sculpture One of the most intellectually engaged and well read artists of his age Ghiberti found inspiration in ancient and medieval texts many of which he and his contacts in Florence's humanist community shared read and discussed He was fascinated by the science of vision by the functioning of nature and above all by the origins and history of art These unusually well defined intellectual interests reflected in his famous Commentaries shaped his approach in the Gates Through the selection imaginative interpretation and arrangement of biblical episodes Ghiberti fashioned multi textured narratives that explore the human condition and express his ideas on a range of social political artistic and philosophical issues

A Gust for Paradise Diane Kelsey McColley, 1993 This beautifully illustrated multidisciplinary study addresses interpretations of the Genesis creation story in Paradise Lost and other seventeenth century English poems and in the visual arts from the Middle Ages through the Reformation It considers poems visual images and music concerned with divine and human creativity and interprets these works as salutary examples for the creation of the arts and the preservation of the earth The central topic is the daily work of body or mind of Adam and Eve in Paradise Lost as primal artists and caretakers of nature before the Fall developing the arts of language music liturgy and government discovering the rudiments of a technology harmless to the biosphere and dressing and keeping a garden that is an epitome of the whole earth These unfallen arts promote awareness of the complex harmonies of creation and potentially of civilization an awareness that is not only linear or binary but radiant and multiple not only monodic but also choral McColley argues that northern European visual artists and seventeenth century English poets reimagined Eden in order to re Edenize the imagination as a source of ethical and ecological healing The best known depictions of Adam and Eve in the visual arts which focus on the drama of the fall depart from a widespread but undervalued tradition that more celebratory and regenerative and less susceptible to misogynous interpretation This tradition includes the neglected topos of original righteousness and contributes to what we would now call ecological awareness Poets allied to this view foster Edenic

consciousness by creating a Paradisal language that weaves form sound image metaphor concept and experience as closely as nature weaves life and so exercises our sense of connections
