Reto W. Kressig,2025-03-17 This guidebook was written under the direction of Prof Dr Reto W Kressig Medical Director of the Felix Platter University Centre for Geriatric Medicine Basel in collaboration with specialists from the fields of nutrition and sports science theology neurology psychiatry neuropsychology and geriatrics and provides up to date knowledge on the mainstays of healthy ageing Packed with scientific details and practical guidance on good food healthy sleep the importance of a social network and physical fitness this book offers important tips for the young and the old for laypeople and experts alike for everyday medium and long term issues because everything we do has a long term effect on our health Contrary to previous assumptions the way we age depends primarily on the lifestyle we choose less so on our genes Of course it should be up to each individual to choose their own lifestyle Ultimately however it is a fact that health in old age is a high priority for most people and it can be worthwhile to take the reins with the knowledge imparted Whether we tend to avoid human contact or approach other people with interest to promote our brain fitness Ageing is and remains a natural process and life means changing developing and maturing The radical anti ageing philosophy with its slogan forever young would be hostile to life

faszinierendes Stück Zeitgeschichte in Porträts **Eigensinn** Hermann Hesse (Schriftsteller), 1974 **Aging and Human**

Nature Mark Schweda, Michael Coors, Claudia Bozzaro, 2020-01-11 This book focuses on ageing as a topic of philosophical theological and historical anthropology. It provides a systematic inventory of fundamental theoretical questions and assumptions involved in the discussion of ageing and old age. What does it mean for human beings to grow old and become more vulnerable and dependent? How can we understand the manifestations of ageing and old age in the human body? How should we interpret the processes of change in the temporal course of a human life? What impact does old age have on the social dimensions of human existence? In order to tackle these questions the volume brings together internationally distinguished scholars from the fields of philosophy, theology, cultural studies, social gerontology and ageing studies. The collection of their original articles makes a twofold contribution to contemporary academic discourse. On one hand it helps to clarify and deepen our understanding of ageing and old age by examining it from the fundamental point of view of philosophical theological and historical anthropology. At the same time it also enhances and expands the discourses of philosophical theological and historical anthropology by systematically taking into account that human beings are essentially ageing creatures. *Autobiographische Schriften* Johann Wolfgang von Goethe, 1659 *Autobiographische Schriften* Johann Wolfgang von Goethe, 1994 *Autobiographische Schriften I* Christa Maria Schmidt, 2015-06-03 Keine aufehrliche Beschreibung für Autobiographische Schriften I verf gbar **The Hero's Quest for the Self** David G.
