The Life and Times of Eleanor of Aquitaine Earle Rice, 2010 Acclaimed as the most beautiful woman of her time Eleanor of Aquitaine c 1122 1204 uniquely shaped 12th century Europe As the wife of tow kings and the mother of three others her beauty grace style and intellect captivated a continent At a time when men regarded women as little more than personal property to be owned and exploited Eleanor threw off the shackles of male dominance and scribed an indelible mark on the history of France and England As France s queen Eleanor accompanied Louis VII on the Second Crusade to the Holy Land and championed a burgeoning feminist movement After divorcing Louis she married Henry II of England Her marriages to Henry upset the balance of power in Europe and led to 300 years of warfare before its restoration

Eleanor of Aquitaine 1124-1204 queen of France and England and mother of two kings has often been described as one of the most remarkable women of the Middle Ages Yet her real achievements have been embellished and even obscured by myths that have grown up over eight centuries This process began in her own lifetime as chroniclers reported rumours of her scandalous conduct on crusade and has continued ever since She has been variously viewed as an adulterous queen a monstrous mother and a jealous murderess but also as a patron of literature champion of courtly love and proto feminist defender of women's rights Inventing Eleanor interrogates the myths that have grown up around the figure of Eleanor of Aquitaine and investigates how and why historians and artists have invented an Eleanor who is very different from the 12th century queen The book first considers the medieval primary sources and then proceeds to trace the post medieval development of the image of Eleanor from demonic queen to feminist icon in historiography and the broader culture
