Willem De Kooning

Garden In Delft Willem De Kooning Landscapes 192888:

Garden in Delft Willem De Kooning, David Anfam, 2004 This carefully culled portfolio of 14 paintings meticulously reproduced and documented spans 60 years from the time of the master's arrival in America to the late 80s. Readers will find rare examples of de Kooning's earliest works juxtaposed with a cityscape from the 1950s, canvases from the important period of his arrival in Easthampton and abstract landscapes of the 70s and 80s. David Anfam's essay traces de Kooning's intriguing relationship to water, invoking the work of Heraclitus, Yeats, Melville, and Frost in conjuring the sense of fluidity that characterized both his urban and rural work. Anfam also puzzles over the enigma of a man who lived perpetually beside the ocean; the book opens with a photograph of him striding across the beach in Easthampton in 1968 but never learned to swim.

Water and Art David Clarke, 2012-01-01 Restless, protean, fluid, evanescent, despite being a challenge to represent visually, water has gained a striking significance in the art of the twentieth century. This may be due to the fact that it allows for a range of metaphorical meanings, many of which are particularly appropriate to the modern age. Water is not merely a subject of contemporary art but also a material increasingly used in art making, giving it a distinct dual presence. *Water and Art* probes the ways in which water has gained an unprecedented prominence in modern Western art and seeks to draw connections to its depiction in earlier art forms. David Clarke looks across cultures, finding parallels within contemporary Chinese art, which draws on a cultural tradition in which water has an essential presence and is used as both a subject and a medium. The book features a wealth of images by artists from East and West, including Fu Baoshi, Shi Tao, Wei Zixi, Fang Rending, Leonardo da Vinci, Bernini, Turner, Gericault, Klee, Matisse, Monet, Picasso, Mondrian, and Kandinsky. Fast-paced, accessible, and comprehensive, *Water and Art* will appeal to the specialist and the general reader alike, offering fresh perspectives on familiar artists as well as an introduction to others who are less well known. Gaugh, Willem De Kooning, 1983 Willem de Kooning had a restless, probing creativity, pushing on from one style to the next. The battle between abstraction and figuration was essential to his art as he moved from the profound black and white abstractions of the 1940s to the ferocious *Women* of the 1950s, through the later landscapes and the final lyrical abstractions. This richly illustrated volume offers a perceptive and sympathetic view of an artist who made some of the greatest art of this century. The variety, the inventiveness, the sheer quality of de Kooning's work demand our attention and reward us with visual riches. Book jacket *Willem de Kooning* Willem De Kooning, Julie Sylvester, David Sylvester, 2006 *Willem de Kooning* Willem De Kooning, 2002 [Willem de Kooning](#) Marla Prather, 1994 One of America's greatest painters, Willem de Kooning is a masterful colourist whose huge canvases are charged with enormous energy. The publication of this beautiful book, which presents eighty of de Kooning's finest paintings and painted

works on paper from the early 1940s to the 1980s coincides with the artist's ninetieth birthday in the spring of 1994. Organized thematically and chronologically, the book focuses on de Kooning's most noteworthy and original painted achievements: portraits from the early 1940s; black and white abstractions from 1945 to 1949 that established de Kooning as a leader of the abstract expressionist movement; monumental cityscape paintings from 1949 and 1950; key selections from the notorious Woman series of 1945 to 1954; highway and pastoral landscape abstractions from 1954 to 1960; lush figures in landscapes from 1966 to 1973; landscapes from the 1970s and later expressive and calligraphic tableaux. Drawing on new archival sources, essays by David Sylvester, Richard Shiff, and Marla Prather reassess de Kooning's critical status, examine his complex and evocative painting techniques, place him in the context of other artists and art movements of his era, and discuss the fundamental impact of his art on subsequent generations. The book serves as the catalogue for a major retrospective of de Kooning's work that will be on exhibit at the National Gallery of Art in Washington from 8 May 1994 to 5 September 1994; the Metropolitan Museum in New York from 6 October 1994 to 8 January 1995; and the Tate Gallery in London from 15 February 1995 to 7 May 1995.

Willem De Kooning Sally Yard, 2007. Text by Sally Yard. Interview by Harold Rosenberg. James T. Valliere. *Willem de Kooning* Carolyn Lanchner, 2011. Willem de Kooning was a pioneering figure among Abstract Expressionists, one of the most influential champions of the dynamic new painting that brought New York to the center of the international scene in the 1950s. This book features ten paintings and drawings by de Kooning selected from The Museum of Modern Art's substantial collection of his work. Together they trace the artist's career, illustrating his much heralded debut exhibition in 1948, his sensational Woman series of the 1950s and 1960s, and the serene works he made late in life. An essay by Carolyn Lanchner, a former curator of painting and sculpture at the Museum, accompanies each work, illuminating its significance and placing it in its historical moment in the development of modern art.

De Kooning Bernhard Bürgi, Klaus Kertess, Ralph Ubl, 2005. Overview. Willem de Kooning is celebrated in the United States as one of the most significant artists of the 20th century and a leading Abstract Expressionist. In Europe, however, the artist has yet to be fully recognized, particularly with regards to his work of the 1960s and 1970s when he retreated from urban life to live and work on Long Island. This segment of de Kooning's oeuvre bears the imprint of a fundamental experience of the landscape, for it was in these Long Island works that he developed a new style of figuration characterized by a transformed sense of color and energetic gesture. This period of vigorous pioneering creativity is illuminated for the first time in this volume, which features a concentrated selection of large-format paintings. In images and essays by Klaus Kertess, Harold Rosenberg, and others, the book illustrates how de Kooning's paintings, although recognizable as landscapes, grew abstract under the influence of his intense experience of nature.
