The Northwest Garden Manifesto John J. Albers, 2017-12-18 Gardens are extensions of our homes places in which we get outside to relax entertain and get some physical exercise But our gardens are also extensions of the natural world Through our gardens as well as other neighborhood greenspaces we can help counter some of the woes faced by larger environments rampant development loss of plant and animal habitat spread of invasive species exploitation of natural resources air and water pollution and the impacts of global warming Yes even small urban backyard landscapes can combat such man made strains on our local environment and it's easy to do In his new book *The Northwest Garden Manifesto* scientist and gardener John J Albers provides a comprehensive guide to encourage and enable homeowners to consider the local ecosystem in their own gardens and in their larger communities The ideas and concepts in this book reflect the most up to date thinking on urban ecology and how to best make our yards reflect the natural world around us The key to Albers's approach is for gardeners to first assess the current state of their property and then focus on the following key principles 1 Protect conserve and create healthy soil 2 Maintain healthy plants and create a sustainable landscape 3 Conserve water and other natural resources 4 Protect water and air quality 5 Protect and enhance wildlife habitat 6 Conserve energy 7 Use sustainable methods and materials Through clear explanation practical examples and full color photos Albers shows how to evaluate any yard in terms of these principles and then challenges the reader to improve each element one step at a time From creating better soil to starting a compost pile attracting pollinators to adding more native plants or creating a simple circulating water feature to building a fence from recycled wood gardeners will ultimately turn their backyards into beautiful healthy and happy habitat for all *Gardening in the Northwest* Editors of Sunset Books, 2003-01-01 Gardeners from Oregon to British Columbia and beyond will applaud the arrival of this all new comprehensive regional guide The guide profiles dozens of innovative gardens each one a stunning example of a particular style with a distinctly Northwest flair 300 photos *The Ann Lovejoy Handbook of Northwest Gardening* Ann Lovejoy, 2012-10-30 The organic gardening movement
