## **Gardens Of New Orleans Exquisite Excess:**

*Gardens of New Orleans* Jeannette Hardy, Lake Douglas, 2001-02 New Orleans is a gardener's paradise. Fragrant ginger and night-blooming jessamine scent the air. Nary a crack in the cement or divot in the wall is free from rogue ferns, mosses, or draping greenery. For generations residents from wildly varied cultures and sensibilities have been at work creating magnificent gardens throughout the city. *New Orleans Gardens* explores this rich history and tours public gardens as well as opens the doors to lovingly tended private balcony, patio, and mansion grounds. Interviews discuss the environmental and cultural forces that shaped the gardens. In photography as sumptuous as his acclaimed *New Orleans Elegance and Decadence*, Richard Sexton vividly illustrates the many traditions interwoven in this bewitching city's landscape heritage.

**New Orleans Gardens** Jeannette Hardy, Lake Douglas, 2001      **Public Spaces, Private Gardens** Lake Douglas, 2011-05-17 Landscape architect Lake Douglas employs written accounts, archival data, historic photographs, lithographs, maps, and city planning documents, many of which have never been published until now, to explore public and private outdoor spaces in New Orleans and those who shaped them. *Public Spaces, Private Gardens*, an informative stroll through the last two hundred years of the designed landscapes and horticultural past of New Orleans, offers a fresh look at the cultural landscape of one of America's most interesting and historic cities.      **Public Spaces, Private Gardens** Lake Douglas, 2011-05-17 Landscape architect Lake Douglas employs written accounts, archival data, historic photographs, lithographs, maps, and city planning documents, many of which have never before been published, to explore public and private outdoor spaces in New Orleans and those who shaped them. The result offers the first in-depth examination of the city's landscape history. Douglas presents this beautiful and imposing city as a work of art crafted by numerous influences. His survey from the colonial period to the twentieth century finds that geography, climate, and above all, the multicultural character of its residents have made New Orleans unique in American landscape design history. French and Spanish settlers, Africans, and Native Americans, as well as immigrants from Germany, Ireland, Italy, and other parts of the world, all participated in creating this community's unique public and private landscapes. Places such as Congo Square, Audubon Park, the river levees, and neutral grounds, local residents' own term for medians together with ordinary residential gardens, are all testaments to the city's international imprint. Douglas identifies five types of public and private designed landscapes in New Orleans: squares, linear open spaces, urban parks, commercial pleasure gardens, and domestic gardens. Discussing their design, function, and content, he shows how specific examples of each contribute to the city's unique character and also fit within the larger context of American landscape design history. Each type has its own complexion and reflects the influence of those who occupied it. Though New Orleanians lived in strata according to language, cultural identity, economics, and race, they found common ground literally in their community's landscapes. Douglas's sweeping study, illustrated with over 90 color and black and white images, includes an exploration of archival horticultural books, almanacs, and periodicals; information about

laborers who actually built landscapes details of horticultural commerce services and marketing materials and an exhaustive inventory of plants grown in New Orleans for agricultural medicinal and ornamental uses Public Spaces Private Gardens provides an informative look at two hundred years of the designed landscapes and horticulture of New Orleans and a fresh perspective on one of America's most interesting and historic cities
