## **Gardens Adirondack Style:**

**Gardens Adirondack Style** Janet Loughrey, 2006-02-23 Garden photographer Janet Loughrey has covered the vast Adirondacks region to document how people have overcome the area's challenging mountain climate to create beautiful gardens for the past 150 years. Her profiles of contemporary gardeners and landscapers and their creations are supplemented with fascinating historic photos of the lavish landscaping of famed Adirondack style estates such as Nirvana and the Knapp Estate and grand old hotel resorts such as Scaroon Manor and Sagamore. *Garden Cemeteries of New England* Trudy Irene Scee, 2019-08-22 In 1831 a new entity appeared on the American landscape the garden cemetery. Meant to be places where the living could enjoy peace, tranquility and beauty as well as to provide a final resting place for the dead, the garden cemeteries would forever change the culture of death and burial in the United States. The ideal cemetery would become one in which ornamental trees, bushes, flowers and waterways graced the ever more artistic for those who could afford them monuments to the dead. Previous to the 1830s the deceased were buried in church lots in small and soon overcrowded public lots and even occasionally in backyards and fields. Graves were often untended, weeds and decay soon took over and the frequently used wooden grave markers rotted away. Some turned to a movement emerging in Europe in which horticulture was starting to become a factor in cemetery planning at a time in which cemetery planning itself was a novel idea. New England was the first region in America to take up the new ideals. The first such cemetery Mt Auburn opened in Cambridge Massachusetts in 1831 and Mount Hope Cemetery in Bangor Maine followed in 1834. Today these cemeteries are both beautiful places to visit and important historical sites. The author takes readers on a historical tour of eighteen of the Northeast's garden cemeteries exploring the landscape architecture, the stunning beauty and delving into the rich history of both the sites and of those who are buried there. *1000 Garden Ideas* Stafford Cliff, 2008-01-01 A stunning resource containing hundreds of garden design ideas and suggestions features one thousand full color photographs along with ingenious solutions to landscape challenges and problems, a directory of suppliers and inspirational tips on plant selection, pergolas and gazebos, walls and fences, paths and paving, containers, topiary, water features and much more. [House & Garden](#), 1910 **Saratoga in Bloom** Janet Loughrey, 2010-06-01 Saratoga Springs is colorful not only culturally and historically but also literally. Come spring and summer the historic resort town is filled with lush plantings in the public parks around private homes from the grandest to the most modest at the Saratoga Race Course grounds and the Skidmore College campus and even throughout the business district along Broadway. Rather than discouraging Saratoga's green thumbs the challenging northern climate only inspires residents to celebrate the return of warm weather and the horse racing season each year with joyful displays of gardens, fountains and flower filled containers of every description. History, health and horses the city's motto neatly sums up Saratoga's most famous attributes. In this celebration of the region's gardens and the people who create them, photographer and writer Janet Loughrey shows us that horticulture should be added to that list. [Garden](#)

Festivals are more than temporary horticultural expositions. Complex and phased, these projects have additional significance as planning stratagems, reclamation projects, public art venues, and precursors of new urban parks. Their scope extends well beyond that implied by the term garden festival. Typically exceeding 50 hectares, they stimulate development and steer site design through a unique merger of domestic garden culture with a large-scale urban project. A general discussion of the origins, formative elements, and chronology of the generic event, followed by cross-cultural reviews and analyses of numerous recent festivals and their site legacies, form the core of this first comprehensive book on the subject. Recent installations have been responsive to the ascendance of open space as a critical planning element, while forthcoming events now develop in the midst of a trend towards the holistic initiatives of urban landscape planning, giving them a renewed relevance for urban design. The author has explored over fifteen festival sites and documents this study using government reports, interview transcripts, thematic maps, master plans, and other primary source material.
