Garlic Capital of the World Pauline Adema, 2010-02-17 According to Pauline Adema you smell Gilroy California before you see it In *Garlic Capital of the World* the folklorist and culinary anthropologist examines the role of food and festivals in creating a place brand or marketable identity The author scrutinizes how Gilroy California successfully transformed a negative association with the pungent bulb into a highly successful tourism and marketing campaign This book explores how local initiatives led to an iconization of the humble product in Gilroy The city a well established agricultural center and bedroom community south of San Francisco rapidly built a place brand identity based on its now famous moniker Garlic Capital of the World To understand Gilroy s success in transforming a local crop into a tourist draw Adema contrasts the development of this now thriving festival with events surrounding the launch and demise of the PigFest in Coppell Texas Indeed the Garlic Festival is so successful that the event is all that many people know about Gilroy Adema explores the creation and subsequent selling of foodscapes or food themed place identities This seemingly ubiquitous practice is readily visible across the country at festivals celebrating edibles like tomatoes peaches spinach and even cauliflower Food Adema contends is an attractive focus for image makers charged with community building and place differentiation Not only is it good to eat food can be a palatable and marketable symbol for a town or region
