Baumgardner, 2000      **The California Golden Seals** Steve Currier, 2020-10-01 Hockey has had its share of bizarre tales over the years but none compare to the fascinating story of the California Golden Seals a team

that remains the benchmark for how not to run a sports franchise From 1967 to 1978 a revolving door of players apathetic owners and ridiculous marketing decisions turned the Seals originally based in Oakland into hockey s traveling circus The team lost tons of money and games cheated death more often than Evel Knievel and left behind a long trail of broken dreams Live seals were used as mascots players wore skates that were painted white on an almost daily basis and draft picks were dealt away nonchalantly like cards at a poker game The California Golden Seals examines the franchise s mismanaged but always interesting history from its ballyhooed beginnings as a minor league champion in the 1960s to its steep slide into oblivion in the late 1970s after moving to Cleveland Through a season by season narrative Currier brings to life the Seals history with lighthearted anecdotes personal interviews and statistics about hockey s most infamous losing team

Hallam,2010-12-27 It is the year 2039 and the planet teeters on the brink of environmental disaster Continued over production and pollution has depleted all resources and made it difficult for people to find the staples of life food water even clean air are all becoming increasingly difficult to find Countries stand on the brink of war over resources and the big political powers position themselves to covertly control the aftermath The Cairo Environment Summit in the summer is meant to allow everybody to come to a point of agreement on what to do but the ageing political powerhouses seem intent only on injuring each other The Old World wants immediately to limit activity to reduce the human impact of over production Their New World antagonists aren t convinced wanting to survey the planet s resources and human activity ostensibly to identify the real causes but really to consolidate their position before cuts happen Whoever gains the upper hand in the war of words stands to win the war However both Presidents vacillate over what to do mindful of the opposing and competing political and environmental agendas that could derail the whole process In Europe there is much talking and procrastinating while in the USA the Vice President begins to position himself to take over from an increasingly unpopular President Ever

determined to stay one step ahead of the Old World the US turns to its main technology partner who is the world leader in the embedded chip technology Both powers extol the virtues of this interface which allows the user to access the internet and to maintain contact with family friends and work colleagues by providing a direct connection between the brain and outside communications It revolutionises living in the States Europeans are less embracing going for the more limited Omni chip over the American Zeus chip which provides an always on connection After a powerful demonstration of its capabilities the US Government commits itself to a covert operation over which it finds it has increasingly less control It s own Senate Committee investigations on environmental change challenge the wisdom of the country s stance but the two key witnesses soon realise they are fighting a losing battle with all save perhaps the chairperson When the deaths begin mysterious and without apparent cause detectives in Europe seek to find out who might be behind the apparently unconnected but similar sudden deaths In the US secret services agencies wonder whether they can stay on top of the increasing number of human infiltrations that threaten the very security of the country and the military stability of the world

**Fundamentalism in America** Philip Melling, 2013-12-02 This important book challenges the idea that religious fundamentalism can adequately be understood as a paranoid xenophobic faith It demonstrates instead how it draws upon a long tradition of evangelical and millennialist scripture in its engagement with issues at the spiritual and ethical core of postmodernity in the United States The author examines the varieties of fundamentalism as they appear in prophecy sermon film and fiction In its wide ranging consideration of the rhetoric of the New World Order the literature of prophecy Cold War films television evangelism cross border texts and post nationalist writing Fundamentalism in America provides a vital and compelling account of the present state of religious and nationality identity in the United States     *The Bulletin of the Commercial Law League of America*, 1915     *Confronting Suburban School Resegregation in California* Clayton A. Hurd, 2014-09-05 The school aged population of the United States has become more racially and ethnically diverse in recent decades but its public schools have become significantly less integrated In California nearly half of the state's Latino youth attend intensely segregated minority schools Apart from shifts in law and educational policy at the federal level this gradual resegregation is propelled in part by grassroots efforts led predominantly by white middle class residential communities that campaign to reorganize districts and establish ethnically separate neighborhood schools Despite protests that such campaigns are not racially culturally or socioeconomically motivated the outcomes of these efforts are often the increased isolation of Latino students in high poverty schools with fewer resources less experienced teachers and fewer social networks that cross lines of racial class and ethnic difference Confronting Suburban School Resegregation in California investigates the struggles in a central California school district where a predominantly white residential community recently undertook a decade long campaign to secede from an increasingly Latino attended school district Drawing on years of ethnographic research Clayton A Hurd explores the core issues at stake in resegregation campaigns as well as the resistance against them mobilized by the working class Latino community From the emotionally charged narratives of local students parents teachers school administrators and community activists emerges a compelling portrait of competing visions for equitable and quality education shared control and social and racial justice     **Sweet Dreams** Johanna Drucker, 2006-09-25 Surveying a wide

range of exciting and innovative artists Drucker demonstrates their clear departure from the past petitioning viewers and critics to shift their terms and sensibilities as well      **Turnpike Flameout** Eric Dezenhall, 2005-12-27 The crash of a private jet in the New Jersey Pine Barrens is just the beginning of problems for faded rock star Turnpike Bobby Chin who somehow survives the crash as a sculptor who created an unflattering statue of the star vanishes and Bobby becomes the prime suspect in the case unless pollster Jonah Eastman can come up with an alternative
