Gastrointestinal Problems:

Care of Gastrointestinal Problems in the Older Adult Sue E. Meiner, Sue E. Meiner, GNP, EdD, 2004-04-15 This book provides nurses with practical information on the most frequently encountered gastrointestinal disorders and problems found in the elderly from constipation hemorrhoids and diverticulosis to cancers of the GI tract It was developed to provide greater depth of information than can be found in general nursing textbooks and to tailor this information to the special needs of the elderly Each chapter includes a definition of the condition followed by its cause normal and abnormal physiology nursing care with attention to nursing diagnoses interventions medications and alternative therapies where appropriate Health promotion nutrition and quality of life issues are included as an essential part of any plan of care for older adults

Paediatric Gastrointestinal Disorders Clarissa Martin, 2019-03-15 The medical specialty of paediatric gastroenterology is focused on problems and disorders within the gastrointestinal tract liver and pancreas of children from infancy until age eighteen This inspirational compilation provides information on current research and clinical practice regarding the psychosocial aspects of paediatric gastrointestinal c *Gastrointestinal Diseases and Disorders Sourcebook, Fifth Edition* James Chambers, 2022-07-01 Provides basic consumer health information about the causes symptoms diagnosis and treatment of digestive diseases and disorders of the gastrointestinal tract including facts about the effects of food intolerances infections and certain cancers Includes index glossary of related terms and other resources Management of Gastrointestinal Diseases in the Elderly Alberto Pilotto, 2007-01-01 The study and care of gastrointestinal disorders in the elderly have become priority topics for both clinicians and researchers as the aged constitute an ever increasing part of the overall population This publication presents the results of recent studies in geriatric gastroenterology reviewing both basic research and clinical aspects A significant part is devoted to the physician s clinical approach to the elderly suffering from specific gastroenterological problems Another focal point is diagnostic testing which becomes very important in old age because clinical features such as history and physical signs are often very difficult to interpret clinical manifestations and the response to therapy may seem to differ because the older patient has several concomitant disorders that may distort the classic features of the primary gastrointestinal disease Also discussed are the effects of aging on the physiology of the gastrointestinal tract and liver functions as well as the management of disorders of the small intestine colon and liver This publication will be useful for general physicians specialists in geriatrics and gastroenterology and all healthcare providers who are involved in planning care management of elderly people with gastrointestinal disorders Active and Healthy Aging and Quality of Life: Interventions and Outlook for the Future Yulan Lin, Waqas Sami, Mila Nu Nu Htay, Sudip Bhattacharya, 2024-04-15 The continuous growth of older adult populations as a consequence of demographic changes is a huge challenge To prevent costly and negative impacts effects on the population as a whole it is crucial that societies increase their knowledge of promoting good health among older adults to promote good health and a better quality of life in

their later years Active aging is the process of optimizing opportunities for health participation and security in order to enhance quality of life as people age An active and healthy life has remained one of the most important aspirations for all people both young and older adults alike This ambition has become a genuine possibility for many due to a rising life expectancy among people of diverse attributes across the world While celebrating longer life and with more financial security in later life than ever before we need to challenge how these aspirations can be sustained through our own behavioural responses and through public policy institutional reforms and innovations The challenge is to identify recommend and promote strategies and interventions that stimulate and sustain the activity independence and health of people of all ages especially older adults and in the process promote the well being and quality of life of people and make public welfare systems more sustainable
