Feeling, Thinking, and Talking L. David Ritchie, 2022-09-15 The way the brain body and mind interact with social structure to shape communication has so far not received the attention it deserves This book addresses this gap by providing a novel account of communication as a social biological and neurological force Combining theories from communication studies and psycholinguistics and drawing on biological and evolutionary perspectives it shows how communication is inherently both biological and social and that language and the neural systems that support it have evolved in response to a complex social environment It introduces a clear set of terms based on current research and illustrates key concepts using real life examples from everyday conversation speaking to a number of current debates around the evolutionary and biological basis of language and the relationship between language cognition and environment Thought provoking and engaging it will change the way we think about the relationship between communication and cognition

Ten Years of Idiographic Science Sergio Salvatore, Jaan Valsiner, 2023-01-01 The first volume of the Yearbook of Idiographic Science YIS was published in 2009 In a nutshell the idea at the grounds of the YIS project is that idiography and nomothetic are not juxtaposed logics and that the science cannot but be both nomothetic in the aim and idiographic in the modes About thirteen years later the sense and the direction of the YIS project envisaged in the first volume's introduction

together with the difficulties to pursue it are still alive and valid Thus to both celebrate the milestone of the tenth issue and to plan the future we asked to some colleagues almost all contributors of previous volumes to discuss what idiographic science means today and what can mean tomorrow The works they have generously provided are very instructive each of them pictures a peculiar perspective on idiography that enables to recognize old and new challenges thus paving the way to innovative ideas and directions
