*Conversations in Philosophy* F. Ochieng'-Odiambo, 2009-10-02 *Conversations in Philosophy Crossing the Boundaries* consists of essays that revolve around

the question of the nature and meaning of philosophy even as it demonstrates philosophy's significance and relevance to some fundamental human problems and issues. The essays present diverse views of what philosophy might be and might aspire to be, with contributors being influenced by a wide range of philosophical approaches and traditions. The conversations also cut across disciplinary boundaries to interrogate and utilize ideas taken from ethics, epistemology, metaphysics, literary studies, cultural studies, and the sociology of science. Traversing regional boundaries, the essays show philosophical analysis at work in exploring some issues pertinent to African, Caribbean, European, and American experiences, even while not ignoring Asian traditions. The collection presents interesting and intriguing views on how philosophical inquiry can illuminate various pressing problems: development, conflict, the discriminating preservation of worthwhile traditions, and the prevalence of apathy. It also reflects the vitality and multifaceted nature of philosophical discourse in grappling with live issues.

*Conversations in Philosophy* is a comprehensive, balanced, and unique anthology of readings capturing the diversity of philosophical investigation.

*Asylum Speakers* April Ann Shemak, 2011. Offering the first interdisciplinary study of refugees in the Caribbean, Central America, and the United States, *Asylum Speakers* relates current theoretical debates about hospitality and cosmopolitanism to the actual conditions of refugees. In doing so, the author weighs the questions of truth value associated with various modes of witnessing to explore the function of testimonial discourse in constructing refugee subjectivity in New World cultural and political formations. By examining literary works by such writers as Edwidge Danticat, Nikl Payen, Kamau Brathwaite, Francisco Goldman, Julia Alvarez, Ivonne Lamazares, and Cecilia Rodríguez, Milan's theoretical work by Jacques Derrida, Édouard Glissant, and Wilson Harris, as well as human rights documents, government documents, photography, and historical studies, *Asylum Speakers* constructs a complex picture of New World refugees that expands current discussions of diaspora and migration, demonstrating that the peripheral nature of refugee testimonial narratives requires us to reshape the boundaries of U.S. ethnic and postcolonial studies.

*Post-deconstructive Subjectivity and History* Aniruddha Chowdhury, 2013-09-19. In *Post Deconstructive Subjectivity and History*, Aniruddha Chowdhury argues that deconstruction is not only not a dissolution of subject as it is often opined, but an affirmation of the singular ethical subject and singular history. Singularity conceived as alterity, difference, and non-identity. Part of the emphasis of the singular history is to conceive the historical relation as figural and as one of repletion with difference. One of the distinctive aspects of the book is that it not only focuses on the tradition of phenomenology but also extends deconstruction to critical theory and postcolonial theory. Through his intimate reading of the canonical texts of the Continental philosophical tradition, phenomenology, and critical theory and postcolonial thought, Chowdhury illuminates pertinent issues in Continental thought and postcolonial theory.

Afro-Caribbean Poetry and Ritual P. Griffith, 2010-04-26 Focusing on orally transmitted cultural forms in the Caribbean this book reaffirms the importance of myth and symbol in folk consciousness as a mode of imaginative conceptualization Paul A. Griffith cross references Kamau Brathwaite and Derek Walcott's postcolonial debates with issues at seminal sites where Caribbean imaginary insurgencies took root This book demonstrates the ways residually oral forms distilled history society and culture to cleverly resist aggressions authored through colonialist presumptions In an analysis of the archetypal patterns in the oral tradition both literary and nonliterary this impressive book gives insight into the way in which people think about the world and represent themselves in it
