Provenance

and Early Cinema Joanne Bernardi, Paolo Cherchi Usai, Tami Williams, Joshua Yumibe, 2021-02-01 Remnants of early films often have a story to tell As material artifacts these film fragments are central to cinema history perhaps more than ever in our digital age of easy copying and sharing If a digital copy is previewed before preservation or is shared with a researcher outside the purview of a film archive knowledge about how the artifact was collected circulated and repurposed threatens to

become obscured When the question of origin is overlooked the story can be lost Concerned contributors in Provenance and Early Cinema challenge scholars digging through film archives to ask How did these moving images get here for me to see them This volume which features the conference proceedings from Domitor the International Society for the Study of Early Cinema 2018 questions preservation attribution and patterns of reuse in order to explore singular artifacts with long and circuitous lives
