Building and Using Binoscopes Norman Butler, 2017-10-03 Covering both homemade and commercial products this book provides the reader with simple and straightforward information about the modeling building and use of binoscopes Binoscopes can be thought of as binoculars enlarged to the size of telescopes essentially a combination of the two Constructing a binoscope is easier than most people think but it still demands attention to detail and proper background knowledge The author goes on to provide additional information about the products currently on the market should the reader choose to purchase one instead of building it Lastly the book also compares binoscopes with telescopes in great detail outlining the differences the reader can expect to see in the night sky from using both The celestial views obtained with a binoscope compared to a single telescope of the same aperture are a very different experience The new edition emphasizes the obvious advantages of viewing celestial objects through a binoscope There are also many new photos and additional information on the latest equipment and some very special and rare equipment a collector might be interested in Newly added cartoons and additional images of beautiful deep sky objects in each of the chapters makes reading the book a more enjoyable experience Finally there is a new comet discovery form and guide to follow for such discoveries and a complete list of Messier objects for those interested in searching for these Edengone J.P. Dold, 2019-10-25 Mike intends to continue in the quiet and peaceful life of a philosophy professor but his friend Ron seems dead set on rewriting the laws of physics As Ron delves deeper into a hair brained theory of his own he discovers another world invisible and intangible to us but existing in the same space as our world Ron persuades Mike to join him and together they traverse the harsh conditions of an alien world locked in war At that moment I was no longer Michael I was no longer intellectual or diplomatic The time for that was gone Now it was the time to act Now was the time of reckoning I became a force I became death and destruction I became blood and fire My heart pounded to the beat of an instinctive primitive and intrinsic war drum I was prosecutor judge jury and executioner I was the tribunal The crime had been committed Justice required punishment And I was there to deliver Deliver I did My battle cry delivered the accusation My weapon served the verdict And the rounds fired from my gun executed the sentence Do I look back on my actions with pride No Would I have spared them if there was another way Yes I wish I could have spared them I wish I could have let them be But they would not let Edengone be Then can I reflect on my choices and look virtue and justice in the eye with confidence Yes a resounding and emphatic yes The correct action is not always a pleasant or happy one but it is necessary and always the best action How do I justify my actions That is between me and the powers I answer to Let the world think of me as they will I was trained to destroy but more importantly I was trained to know when to destroy I do not reflect on my actions with any pride but I do not reflect with any doubt either *House Of Mirth* Janet Beer, Pamela Knights, Elizabeth Nolan, 2007-07-25 Edith Wharton's *The House of Mirth* 1905 is a sharp and satirical but also sensitive and tragic analysis of a young single woman trying to find her place in a materialistic and

unforgiving society The House of Mirth offers a fascinating insight into the culture of the time and as suggested by the success of recent film adaptations it is also an enduring tale of love ambition and social pressures still relevant today Part of the Routledge Guides to Literature series this volume is essential reading for all those beginning detailed study of The House of Mirth and seeking not only a guide to the novel but a way through the wealth of contextual and critical material that surrounds Wharton s text *Finding Our Voice* Marc H. Ellis,2018-06-19 Finding Our Voice is a series of meditations on how to express the deepest sense of who we are in a troubled world What is the core of our being How do we find the language to name that core If the core of our faith is identifying and embodying the prophetic for our time surviving that naming is as challenging as finding our voice Often as not the prophetic lands us in hot water We feel alone and abandoned Recognizing others in the same situation is crucial to our ability to hold fast With others our voice grows more certain and finds a home even in exile Soon the community we left is replaced by a new community of fellow travelers We are not alone

Over the Edge Rhonda Dass,Anthony Guest-Scott,J. Meryl Krieger,2009-03-26 Through their search to achieve a sense of academic identity the authors in this volume have brought us new textures and ideas from their research to help us all in our creation and location of spaces we can claim as our own Working within the traditions of academic scholarship we are reformulating what we see and presenting it in a previously unexplored perspective of connections and possibilities Through our presentation of this view we are asserting a new location for the academic identity negotiation that will challenge and reinforce our positioning within scholarly endeavors The articles contained in these pages are themselves markers of identity produced within and created to define the academic culture From this base of academic tradition the essays contained in this volume share grounding in the exploration of culturally produced markers of identity pulling from various academic disciplines Through the examination of the performance of identity markers each scholar develops and reveals connections that we may utilize in our ever expanding perspective of scholarly subjects and approaches **Introduction to Computer**

Graphics Fabio Ganovelli,Massimiliano Corsini,Sumanta Pattanaik,Marco Di Benedetto,2014-10-17 Teach Your Students How to Create a Graphics Application Introduction to Computer Graphics A Practical Learning Approach guides students in developing their own interactive graphics application The authors show step by step how to implement computer graphics concepts and theory using the EnvyMyCar NVMC framework as a consistent example throughout the text They use the WebGL graphics API to develop NVMC a simple interactive car racing game Each chapter focuses on a particular computer graphics aspect such as 3D modeling and lighting The authors help students understand how to handle 3D geometric transformations texturing complex lighting effects and more This practical approach leads students to draw the elements and effects needed to ultimately create a visually pleasing car racing game The code is available at www.envymycarbook.com
