## Gathering Of Dust:

*The Southland Queen*, 1897      **A Rainbow in Black & White** Helen J. Radford, 2017-10-13 Helens work has been widely shared on the world wide web over the years but she has always wanted to produce a book of her poetry and this is the first edition The title is inspired by her maiden name Rainbow hence the title A Rainbow in Black and White      *Feminist Heidegger* Jill Drouillard, 2025-03-01 This book begins with an unexplored and unanswered question that Martin Heidegger raises in a 1923 Freiburg course Problem What is woman Yet why should we care that Heidegger raises this problem What could he a member of the National Socialist Party help feminists understand about responding to the woman question How can Heidegger help us understand our own historical climate in which this question continues to hold significance Jill Drouillard divides Heidegger s thought into two categories to think about the sexed gendered experiences that coordinate our birth 1 the one that suspends the woman question and that provides useful resources for thinking the fluidity of sex gender and 2 the one that provides a totalized reply to this query by manipulating tropes of the feminine to advance a politico poetic project of Nazi politics She uses Heidegger as a cautionary tale to demonstrate the harm that occurs when society tries to define the being or what is of woman in any definite sense In some chapters she teases apart how Heidegger may have offered a reply to the woman question and in others shows what happens in today s society when law bioethics politics and pedagogy reckon with this query      *Geography* James Franklin Chamberlain, 1928      *Material Mystery* Karmen MacKendrick, 2021-08-17 Material Mystery considers three apparently anthropocentric myths that are central to Abrahamic religions those of the primal human the incarnated and possibly divine redeemer and the resurrected body At first glance these stories reinforce a human centered theology and point to a very anthropomorphic God Taking them seriously seems to ignore the material turn in the humanities entirely with the same sort of willful ignorance that some of our politicians show in declaring that their myths count as facts or that the point of the rest of the world is to further human consumption But it is possible Karmen MacKendrick shows to read these figures through a particular tradition that emerges from the Hebrew Bible the tradition of Wisdom as a creative force Wisdom texts are common across the ancient Near East As the idea of creative Wisdom develops from antiquity into the middle ages it gathers philosophical influences from a range of philosophical traditions This exuberantly promiscuous impurity intellectual artistic and theological generates new interpretive possibilities In these interpretations each human like figure opens up onto the world s matter as an interdependent part of it and matter is thoroughly mixed with divinity Such mythic readings complement our factual scientific understanding of the material world to engage wider kinds of knowing and affective attention particularly Wisdom s combination of care and delight      Official Gazette of the United States Patent Office United States.
