Sammlung Lars Hartman, 1997 **Aspects of Genre of and Type in Pre-Modern Literary Cultures** Bert Roest, Fernand de Varennes, 2021-02-01 This collection of studies is the result of a series of seminars organised by COMERS in 1996 The theme of generic problems has led to a variety of disciplines Ancient Oriental Classical Medieval Arabic Middle Dutch of textual types fables historiography comedies Canon law and a variety of approaches case studies theoretical studies confrontations between native and critical schemes This collection may be useful for comparative purposes but also as an incentive for further studies on generic problems theoretical as well as topical *"Exempla" in Context* Fritz Kemmler, 1984

What Are the Gospels? Richard A. Burridge, 1995-05-11 Compares the work of the evangelists to the development of biography in the Graeco Roman world **Roaming through Seductive Gardens** G.L. Koster, 2021-11-01 In the field of Nusantara literary studies systematic interpretations of individual literary works are still a relatively rare phenomenon This book shows how such interpretations can be fruitfully produced for traditional Malay literature Taking his cue from ideas in modern literary theory anthropology and the study of western medieval literature the author describes the major conventions of traditional Malay narrative and develops a comprehensive model of traditional Malay poetics comprising both oral and written traditions By applying this model to a series of readings of individual works including heroic epics and Panji romances the texts come to life Heroic Sagas and Ballads Stephen A. Mitchell, 2018-10-18 In *Heroic Sagas and Ballads* Stephen A Mitchell examines the world of the medieval Icelandic legendary sagas and their legacy in Scandinavia Central to his argument is the view that these heroic texts should be studied in the light of the later Icelandic Middle Ages rather than

that of the Viking age although the stories the tellers and the audiences are clearly concerned with exactly this period of Scandinavian history Viewing these sagas as the products of highly diverse forms of inspiration and creation some oral some written Mitchell explores their aesthetic and social dimensions demonstrating their function both as entertainment and as a literature with a more serious purpose one with deep roots in Nordic literary consciousness The traditions that these sagas relate possessed an importance beyond the temporal and geographical confines of medieval Iceland and Heroic Sagas and Ballads considers the process by which these heroic materials were subsequently recast as metrical romances in Iceland and as ballads throughout the rest of Scandinavia It is ultimately concerned with much more than just those stories that inspired such modern writers as Richard Wagner and H Rider Haggard its anthropological and folkloric approach to the legendary sagas shows how the extraliterary dimensions of medieval texts can be explored Heroic Sagas and Ballads addresses issues of central importance to medievalists folklorists comparatists Scandinavianists and students of the ballad

(Re)Oralisierung Hildegard L. C. Tristram,1996 **Incubation as a Type-Scene in the Aqhatu, Kirta, and Hannah Stories** Koowon KIm,2011-05-10 This book proposes to read the birth stories of Aqhatu Kirta and Samuel from the perspective of incubation type scene Drawing on Nagler s definition of a type scene it employs the idea of family resemblance as a principle of identification of type scenes *Simple Forms* André Jolles,2017-01-31 A seminal text in literary theory available in English for the first time Legend saga myth riddle saying case memorable fairy tale joke Andr Jolles understands each of these nine simple forms as the reflection in language of a distinct mode of human engagement with the world and thus as a basic structuring principle of literary narrative Published in German in 1929 and long recognized as a classic of genre theory Simple Forms is the first English translation of a significant precursor to structuralist and narratological approaches to literature Like Vladimir Propp s Morphology of the Folktale with which it is often compared Jolles s work is not only foundational for the later development of genre theory but is of continuing relevance today A major influence on literary genre studies since its publication Simple Forms is finally available in English **Folklore Genres** Dan Ben-Amos,2014-06-23 The essays in Folklore Genres represent development in folklore genre studies diverging into literary ethnographic and taxonomic questions The study as a whole is concerned with the concept of genre and with the history of genre theory A selective bibliography provides a guide to analytical and theoretical works on the topic The literary oriented articles conceive of folklore forms not as the antecedents of literary genres but as complex symbolically rich expressions The ethnographically oriented articles as well as those dealing with classification problems reveal dimensions of folklore that are often obscured from the student reading the folklore text alone It has long been known that the written page is but a pale reproduction of the spoken word that a tale hardly reflects the telling The essays in this collection lead to an understanding of the forms of oral literature as multidimensional symbols of communication and to an understanding of folklore genres as systematically related conceptual categories in culture What kinship terms are to social structure genre terms are to folklore

Since genres constitute recognized modes of folklore speaking their terminology and taxonomy can play a major role in the study of culture and society The essays were originally published in *Genre* 1969 1971 introduction bibliography and index have been added to this edition

The Baptized Muse Karla Pollmann, 2017 A collection of Pollmann's previously published essays on early Christian poetry most newly translated from German and all updated and corrected It is a genre that has tended to be overlooked by both Classicists and Patristics scholars and this collection will rectify that

The Gospel of John as Genre Mosaic Kasper Bro Larsen, 2015-10-28 In recent decades New Testament scholarship has developed an increasing interest in how the Gospel of John interacts with literary conventions of genre and form in the ancient Jewish and Greco Roman context The present volume brings together leading scholars in the field in order to discuss the status quaestionis and to identify new exegetical frontiers In the Fourth Gospel genres and forms serve as vehicles of ideological and theological meaning The contributions to this volume aim at demonstrating how awareness of ancient and modern genre theories and practices advances our understanding of the Fourth Gospel both in terms of the text as a whole gospel ancient biography drama romance etc and in terms of the various literary tiles that contribute to the Gospel's genre mosaic

Genre Analysis and Corpus Design Ulrike Henny-Krahmer, 2024-01-22 This work in the field of digital literary stylistics and computational literary studies is concerned with theoretical concerns of literary genre with the design of a corpus of nineteenth century Spanish American novels and with its empirical analysis in terms of subgenres of the novel The digital text corpus consists of 256 Argentine Cuban and Mexican novels from the period between 1830 and 1910 It has been created with the goal to analyze thematic subgenres and literary currents that were represented in numerous novels in the nineteenth century by means of computational text categorization methods To categorize the texts statistical classification and a family resemblance analysis relying on network analysis are used with the aim to examine how the subgenres which are understood as communicative conventional phenomena can be captured on the stylistic textual level of the novels that participate in them

Discourse and Power Peter V. Zima, 2023-05-31 *Discourse and Power* An Introduction to Critical Narratology Who Narrates Whom is both an introduction to discourse research and an application of the concept of discourse to the problem of power Divided into two sections Part One is a presentation of the most important theories of discourse in which the link between discourse and power or language and power is central It provides a critical overview of the most important discourse theories Foucault Bourdieu Fairclough and Greimas's structural semiotics In Part Two the section on practice the insights gained in the first part of the book are applied to analyses of particular discourses and their involvement in power relations Ranging from psychiatric legal political literary and scientific discourses examples include the presidential speeches of Obama Trump and Biden and the novels of Camus and Pirandello The book demonstrates that it is possible in theoretical discourse to reduce the power factor to a minimum improve theoretical innovation and thus pave the way for new insights in social sciences This is an important and timely text from a leading scholar suitable for use in discourse analysis

critical discourse analysis and rhetoric courses **The Rhetoric of Topics and Forms** Gianna Zocco, 2021-01-18 The fourth volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes articles that study thematic and formal elements of literary texts Although the question of prioritizing either the level of content or that of form has often provoked controversies most contributions here treat them as internally connected While theoretical considerations inform many of the readings the main interest of most articles can be described as rhetorical in the widest sense given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor irony or satire but also that of *topoi* which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves Another feature shared by most of the articles is the tendency of undeclared thematology which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific often interdisciplinary fields of literary study In this sense this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them literary multilingualism literature and emotions and ecocriticism **Linguistics and Literary Studies / Linguistik und Literaturwissenschaft** Monika Fludernik, Daniel Jacob, 2014-04-01 Die Beitr ge des Bandes zeigen dass die disziplin re Begegnung zwischen Sprach und Literaturwissenschaft weit mehr ist als eine Tradition akademischer Institutionen In 16 allgemein theoretischen und textbezogenen Analysen werden Ber hrungspunkte zwischen den beiden Disziplinen beleuchtet auch solcher institutioneller Art Es werden die Gemeinsamkeiten und Unterschiede zwischen Alltagsdiskurs und Literatur herausgearbeitet und linguistische Begrifflichkeiten auf literarische Texte angewandt Dies betrifft Fragen wie Sprechakt Referenz und Inferenz die Strukturen und die Relevanz des kognitiven und kulturellen Hintergrunds f r beide Diskursformen Rhetorik und Perspektivierungen Sprach und Schreibstile Gattungen und andere Ebenen diskursiver Traditionen **Aseneth's Transformation** Kirsten Marie Hartvigsen, 2018-12-17 The story of Joseph and Aseneth is a fascinating expansion of the narrative in Genesis of Joseph in Egypt and in particular of his marriage to the daughter of an Egyptian priest This study examines the portrayal of Aseneth s transformation in the text focusing on three perspectives How did Aseneth s encounter with Joseph and her subsequent transformation affect various aspects of her identity in the narrative In what ways do the portrayals of Aseneth her transformation and her abode relate to select metaphors and other symbolic features depicted in the Septuagint the Hebrew Bible and the Pseudepigrapha And how do the ritualized components through which Aseneth s transformation occurred function in the narrative and why are they perceived as effective In order to shed light on these facets of Joseph and Aseneth the author draws on the contemporary approaches of intersectionality conceptual blending intertextual blending and the cognitive theory of rituals using these theoretical frameworks to explore and illuminate the complexity of Aseneth s transformation Speaking of Jesus Willem S. Vorster, 2014-04-09 This volume presents a selection of essays by the late

Willem Vorster one of the most prominent New Testament scholars to have emerged from South Africa An introductory essay by the editor explains Vorster s contribution to New Testament scholarship in general and to South African New Testament scholarship in particular Vorster s essays are grouped primarily under the topics Language and Linguistics Reader Response Narratology Historical Paradigms and The Historical Jesus In addition to his work on method Vorster was a well known Markan scholar and this is reflected in the fact that more than half of his methodological essays are concerned with that Gospel The book includes a curriculum vitae a full bibliography and indexes
