*Gay and Lesbian Parenting* Jack Drescher, Deborah Glazer, 2001-08-29 Find sources of support for raising a nontraditional family in a straight world The experience of parenting is commonly overlooked in psychological theory and lesbians and gay men are not typically considered as parents or parents to be *Gay and Lesbian Parenting* examines the psychological issues related to developing family and becoming parents for gay men and lesbians Instead of pathologizing gay and lesbian families it explores the emotional growth and development issues inherent in child rearing Traditionally coming out as gay or lesbian meant abandoning any hope of becoming a parent or keeping your children if you already had them But with the gayby boom in full swing more and more gay and lesbian couples are having new babies adopting children and continuing to raise the offspring of previous heterosexual relationships Although gay and lesbian parents still face unique challenges in building and rearing a family as well as the usual problems heterosexual couples encounter *Gay and Lesbian Parenting* unflinchingly examines these concerns and offers positive suggestions and ideas for dealing with the difficulties This life affirming book takes a look at the practical and emotional realities of raising children in nontraditional family structures including issues of kinship shared motherhood and possessiveness in lesbian couples legal issues entailed by the lack of marriage and legal kinship parenthood as a powerful force for personal growth and development fatherhood as a process of creating connectedness in the family community and place of worship original empirical research on the mental health of lesbians children the history of the gay and lesbian movement as it relates to child rearing *Gay and Lesbian Parenting* affirms the power of gay and lesbian couples to raise healthy happy children and to change and grow through their experience of parenting This book is also essential for mental health professionals from psychiatric nurses to psychiatrists who are working with the gay and lesbian community     *Gay and Lesbian Parenting* Fiona Tasker, Jerry J. Bigner, 2008-04-14 *Gay and Lesbian Parenting* New Directions builds on important research with a detailed multidisciplinary examination of established knowledge and emerging information     **How It Feels to Have a Gay or Lesbian Parent** Judith E. Snow, 2013-04-15 Sometimes I fantasize about having a magic wand How awesome it would be to wave it and completely eliminate prejudice hate and ignorance Just imagine what it would be like to live in a world like that *How It Feels to Have a Gay or Lesbian Parent* A Book by Kids for Kids of All Ages gives voice to the thoughts feelings and experiences of children adolescents and young adults who have a gay or lesbian parent In their own words they talk openly and candidly about how and when they learned of their parent s sexual orientation and the effect it had on them and their families Their stories echo themes of prejudice and harassment conflict and confusion adaptation and adjustment and hope for tolerance and a family that can exist in harmony Because it s an issue for other people it becomes an issue for me I m angry about the way it works against me The stories told in *How It Feels to Have a Gay or Lesbian Parent* not only reflect the day to day struggle of children with a GLBT parent they also reveal the pain inherent in high conflict divorce and child custody cases Children of gay lesbian

parents ranging in age from seven to 31 recall the confusion and grief created when the disclosure of their parent's true sexual orientation ended a marriage and divided a family. The straight parent's resentment can lead to angry remarks that intentionally or unintentionally disparage the gay/lesbian parent and threaten the natural love and affection the child feels for both. I guess the hardest part about having a gay dad is that no matter how okay you are with it, there's always going to be someone who will dislike you because of it. The one-on-one interviews presented in *How It Feels to Have a Gay or Lesbian Parent* document first-hand the effects of homophobia on family life. Children struggle with the choice between living in a closet, shamed by peers and family members, or dealing with discrimination as a parent's sexual orientation is used against them. Taken together, these stories make a statement for acceptance, understanding, and tolerance as children do their best to make the transition from a traditional family to a nontraditional lifestyle. My mom is a normal person just like everyone else. The only thing that's different about her is that she's gay, and if you can't deal with it, you're just going to have to live with it. *How It Feels to Have a Gay or Lesbian Parent: A Book by Kids for Kids of All Ages* offers comfort and support to children from those who share their journey. The book is a valuable aid for practitioners working with children of GLBT parents and an educational tool for GLBT adults considering children. **Lesbian and Gay Parents and Their Children** Abbie E.

Goldberg, 2010. The past several decades have seen increasing controversies over lesbian and gay parenthood. More same-sex couples than ever are becoming parents, building their families, while others debate their legal rights pertaining to marriage and parenthood. Against this sociopolitical backdrop, how do same-sex couples transition to parenthood, and what are their experiences as parents? Furthermore, what are the experiences of their children? This book provides a comprehensive overview of the research on same-sex parenthood, exploring ways in which lesbian and gay parents resist, accommodate, and transform fundamental notions of gender, parenting, and family. The book takes a family life cycle approach, beginning with research on how same-sex couples meet and build healthy relationships, then describing how and why same-sex couples decide to have children and how they grapple with the changing roles each partner must adopt. Their experiences raising children through young adulthood are explored, including the challenges of interacting with their children's schools and teachers. In the end, the book considers the perspectives of the children themselves as young adults, and adults speak out about their experiences having lesbian or gay parents. Integrating both qualitative and quantitative research, this book incorporates a range of disciplines, including psychology, sociology, sexuality, gender studies, and human development. It also highlights understudied aspects of same-sex parenting, such as termination of couple relationships. With practical recommendations in every chapter, this book is a resource for those who research lesbian and gay mental health and family issues, as well as those who provide services to lesbian and gay parents and parents-to-be. Reinventing the Family Laura Benkov, 1994. In America today, more than 10 million children have gay or lesbian parents. *Reinventing the Family* is the first in-depth look at the joys, challenges, and issues facing these nontraditional families. It offers invaluable insight to gay and lesbian people who are choosing

shock is often followed by feelings ranging from anger and denial to fear and guilt. It's also the beginning of a difficult journey that with understanding and emotional support can lead to acceptance and beyond. Now fully revised and updated, *Beyond Acceptance* is a ground-breaking book that provides parents the comfort and knowledge they need to accept the gay children and build stronger family relationships. Based on the experiences of other parents, this book lets them know they are not alone and helps them through the emotional stages leading to reconciliation with their children.

***Same-Sex Parent Socialization*** Marykate T. Oakley, 2015 Cultural socialization has been linked with child development and outcome but to date the majority of research has focused on race and ethnicity. However, since families headed by gay and lesbian parents experience stigma related to parental sexual orientation, socialization practices may be uniquely important for families headed by gay and lesbian parents. The present study examined same-sex parent socialization among 54 families headed by gay and lesbian parents: 52 fathers, 43 mothers, 51 school-aged children using a cultural socialization framework. Findings revealed that parents engaged in socialization along three dimensions: Cultural Socialization, Preparation for Bias, and Proactive Parenting. Children perceived same-sex parent socialization with less frequency than parents reported engaging in these behaviors across all dimensions. In general, same-sex parent socialization was not associated with child behavioral adjustment. Neither same-sex parent socialization nor child behavioral adjustment was associated with whether parents were gay or lesbian. Results from this study justify the need to broaden our conceptualization of cultural socialization to be more inclusive of these diverse family structures.

***Social Work with Lesbian Parent Families*** Lucy R. Mercier, Rena D. Harold, 2013-10-18 The traditional concept of family as being exclusively heterosexual has resulted in myth generation about lesbian parents as well as fostering limitations in the programs and benefits that support more diverse nontraditional families. *Social Work with Lesbian Parent Families: Ecological Perspectives* explores the variety of social systems with which lesbian parent families interact with a focus on implications for improved diversity-affirming service delivery and policy development. Unlike other literature on lesbian parent families, this revealing resource pulls together work on lesbian parenting from various researchers across a broad range of disciplines and presents this work from the ecosystems perspective so that the reader may view the experiences of lesbian parent families in a holistic way. The research goes beyond simple comparisons between lesbian and straight mothers. This useful text provides more complex research data including both a more sophisticated view of the diverse communities in which lesbian parents are found and more innovative ways of studying the issues relevant to social service providers. Developmental and life issues negotiated by lesbian parent families are discussed in detail using a strengths-based approach to intervention with individuals, families, small groups, communities, and larger systems. This unique book has the strong potential to influence the policies that impact lesbian parent families. *Social Work with Lesbian Parent Families: Ecological Perspectives* is a valuable resource for social workers, psychologists, sociologists, anthropologists, marriage and family therapists, public policy and administration professionals, students, and academics doing
