The Oxford Handbook of Soviet Underground Culture Mark Lipovetsky, Maria Engström, Tomáš Glanc, Ilja Kukuj, Klavdia Smola, 2024 In 1932 the Central Committee of the Communist Party issued the resolution On the Restructuring of Literary and Arts Organizations This resolution put an end to the coexistence of aesthetically different groups and associations of writers and artists that had been common during the 1920s and instead led to the establishment of the monopoly of Socialist Realism in 1934 Ironically this resolution unwittingly created a rich literary and artistic production of underground intellectuals known as the Soviet underground during an era of political and aesthetic censorship in the Soviet Union *The Oxford Handbook of Soviet Underground Culture* is the first

comprehensive English language volume covering a history of Soviet artistic and literary underground In forty four chapters an international group of leading scholars introduce readers to a web of subcultures within the underground highlight the culture achievements of the Soviet underground from the 1930s through the 1980s emphasize the multimediality of this cultural phenomenon and situate the study of underground literary texts and artworks into their broader theoretical ideological and political contexts The volume presents readers with several approaches to mapping the underground that include chapters on nonconformist cultures in Ukraine Belarus Baltic countries Central Asia and provincial cities of Russian Federation Finally the volume also provides an analysis of groups shaped around religious and cultural identity as well as queer and feminist underground circles

Gay Lives and 'Aversion Therapy' in Brezhnev's Russia, 1964-1982 Rustam Alexander, 2023-11-24 This book examines the autobiographies and diaries of Soviet homosexual men who underwent psychotherapy during the period from 1970 to 1980 under the guidance of Yan Goland a psychiatrist sexopathologist from Gorky The examination of these unique and little known documents contributes to our scant knowledge about the practices that many would call a Soviet proto type of aversion therapy It also helps us understand the way homosexual people faced queer dilemmas of the self and how they sought to reconcile their queer desire with being Soviet

Regulating homosexuality in Soviet Russia, 1956-91 Rustam Alexander, 2021-05-25 This ground breaking book challenges the widespread view that sex and homosexuality were unmentionable in the USSR The Khrushchev and Brezhnev eras 1956 82 have remained obscure and unexplored from this perspective Drawing on previously undiscovered sources Alexander fills in this critical gap The book reveals that from 1956 to 1991 doctors educators jurists and police officers discussed homosexuality At the heart of discussions were questions which directly affected the lives of homosexual people in the USSR Was homosexuality a crime disease or a normal variant of human sexuality Should lesbianism be criminalised Could sex education prevent homosexuality What role did the GULAG and prisons play in homosexuality across the USSR These discussions often had practical implications doctors designed and offered medical treatments for homosexuality in hospitals and procedures and medications were also used in prisons

Resituating Crisis Dorte Jagetic Andersen,Lola Aubry,2025-01-01 The world is increasingly influenced by ongoing crisis

or at least this is what mainstream media and politics wants us to believe When portrayed here crisis most often comes in the form of situations challenging a sense of normality such as with violent conflicts pandemics or forced migration However crisis is not just a situation twisting normality but can become constitutive of normality itself In exploring transformative and constructive elements to being in crisis this volume resituates the view on crisis in everyday life to foster critical and nuanced examination of discourses on and experiences of it

Violent Affections Alexander Sasha Kondakov, 2022-09-07 *Violent Affections* uncovers techniques of power that work to translate emotions into violence against queer people Based on analysis of over 300 criminal cases of anti queer violence in Russia before and after the introduction of gay propaganda law the book shows how violent acts are framed in emotional language by perpetrators during their criminal trials It then utilises an original methodology of studying legal memes and argues that these individual affective states are directly connected to the political violence aimed at queer lives more generally The main aim of *Violent Affections* is to explore the social mechanisms and techniques that impact anti queer violence evidenced in the reviewed cases Alexander Sasha Kondakov expands upon two sets of interdisciplinary literature queer theory and affect theory in order to conceptualise what is referred to as neo disciplinary power Taking the empirical observations from Russia as a starting point he develops an original explanation of how contemporary power relations are changing from those of late modernity as envisioned by Foucault's Panopticon to neo disciplinary power relations of a much more fragmented fluid and unstructured kind the Memeticon The book traces how exactly affections circulate from body to body as a kind of virus and eventually invade the body that responds with violence In this analytic effort it draws on the arguments from memetics the theory of how pieces of information pass on from one body to another as they thrive to survive by continuing to resonate This work makes the argument truly interdisciplinary

The Communist Experience in the Twentieth Century Glennys Young, 2011-10-13 Using a source based approach *The Communist Experience in the Twentieth Century* is the first text designed to help students general readers and scholars understand how people constructed Communist ways of life around the world Taking a global approach it extends beyond Russia and Eastern Europe to examine the lives of people in China Korea Vietnam Cambodia Kyrgyzstan Algeria Peru Cuba and elsewhere The book provides an inside look at the Communist experience where people were sometimes simultaneously so enthusiasts reshapers resisters and victims of an ideological project that was and for some still is both humanity's darkest nightmare and brightest hope Since the collapse of Communist regimes beginning in 1989 vital questions about how people subjectively experienced Communism helped to shape it and constructed an idea of self in such restrictive environments have not lost their political significance In fact just the opposite holds true The opening of many formerly closed Communist archives has given scholars the opportunity to research the political significance that the construction of the self had across Communist regimes politics and movements Incorporating the latest scholarship *The Communist Experience in the Twentieth Century* includes previously unavailable documents such as diaries and letters which are now accessible as a result of the archival

Love's Next Meeting Aaron Lecklider, 2023-05-02 How queerness and radical politics intersected earlier than you thought Well before Stonewall a broad cross section of sexual dissidents took advantage of their space on the margins of American society to throw themselves into leftist campaigns Sensitive already to sexual marginalization they also saw how class inequality was exacerbated by the Great Depression witnessing the terrible bread lines and bread riots of the era They participated in radical labor organizing sympathized like many with the early prewar Soviet Union contributed to the Republicans in the Spanish Civil War opposed US police and state harassment fought racial discrimination and aligned themselves with the dispossessed Whether they were themselves straight gay or otherwise queer they brought sexual dissidence and radicalism into conversation at the height of the Left's influence on American culture Combining rich archival research with inventive analysis of art and literature Love's Next Meeting explores the relationship between homosexuality and the Left in American culture between 1920 and 1960 Aaron S Lecklider uncovers a lively cast of individuals and dynamic expressive works revealing remarkably progressive engagement with homosexuality among radicals workers and the poor Leftists connected sexual dissidence with radical gender politics antiracism and challenges to censorship and obscenity laws through the 1920s and 1930s In the process a wide array of activists organizers artists and writers laid the foundation for a radical movement through which homosexual lives and experiences were given shape and new political identities were forged Love's Next Meeting cuts to the heart of some of the biggest questions in American history questions about socialism about sexuality about the supposed clash still making headlines today between leftist politics and identity politics What emerges is a dramatic sexually vibrant story of the shared struggles for liberation across the twentieth century *Red closet* Rustam Alexander, 2023-05-23 In 1934 Joseph Stalin enacted sodomy laws unleashing a wave of brutal detentions of homosexual men in large Soviet cities Rustam Alexander recounts the compelling stories of people whose lives were directly affected by those laws including a naive Scottish journalist based in Moscow who dared to write to Stalin in an attempt to save his lover from prosecution and a homosexual theatre student who came to Moscow in pursuit of a career amid Stalin's harsh repressions and mass arrests We also meet a fearless doctor in Siberia who provided medical treatment for gay men at his own peril and a much loved Soviet singer who hid his homosexuality from the secret police Each vignette helps paint the hitherto unknown picture of how Soviet oppression of gay people originated and was perpetuated from Stalin's rule until the demise of the USSR This book comes at a time when homophobia is again rearing its ugly head under Putin's rule The Emergence and Development of LGBT Protest Activity in Russia Radzhana Buyantueva, 2022-10-27 This book draws on social movement theories and rich empirical data to analyze LGBT protest activity in Russia It offers a critical examination of the

conditions under which LGBT protest activity arises and declines in authoritarian states including state repression and socio political discrimination of LGBT people policy changes that negatively affect the LGBT community and the motivations of the activists themselves The author argues that a combination of political opportunity structures resources and activists perceptions establish necessary conditions for protesting If any of these factors are negatively affected then LGBT activists would not be motivated to protest The volume concludes with a discussion of the implications of Russian LGBT activism in hostile conditions This book will be of interest to scholars engaged in human rights social movement studies gender studies LGBT rights and post Soviet politics and societies
