Gazetteer Of Manitoba Natural Resources Canada:

Gazetteer of Canada ,1994 The Geography of Manitoba John Welsted,John Everitt,Christoph Stadel,1996-03-15

Manitoba is more than one of Canada's three prairie provinces Encompassing 649 950 square kilometres its territory ranges from Canadian Shield to grassland parkland and subarctic tundra Its physical geography has been shaped by ice age glaciers while its human geography reflects the influences of its various inhabitants from the First Nations who began arriving over 9 000 years ago to its most recent immigrants This fascinating range of geographical elements has given Manitoba a distinct identity and makes it a unique area for study Geography of Manitoba is the first comprehensive guide to all aspects of the human and physical geography of this unique province Representing the work of 47 scholars and illustrated with over 200 maps diagrams and photographs it is divided into four main sections covering the major areas of the province's geography Physical Background People and Settlements Resources and Industry and Recreation As well as studying historical developments the contributors to Geography of Manitoba analyse recent political and economic events in the province including the effect of federal and provincial elections and international trade agreements They also comment on future prospects for the province considering areas as diverse as resource management and climatic trends Gazetteer of Canada. New Brunswick Canadian Permanent Committee on Geographical Names,1994 This third edition of the Gazetteer of Canada New Brunswick contains just over 14 000 official and formerly approved entries and supersedes the last edition which was printed in 1972 Readers will find officially approved names of New Brunswick's administrative areas such as cities towns villages and communities and also physical features such as watercourses hills mountains and points This document is formatted for use in both official languages and indicates the current official spelling of our geographical feature names Municipal names are established by a process that is legislated ensuring that most amendments require significant public input whether the change requested is minor or major **World Mapping Today** Bob Parry,Chris Perkins,2011-12-22 No detailed description available for World Mapping Today **Aboriginal Geographical Names of Canada** Albertina Pianarosa,Canadian Permanent Committee on Geographical Names,Geomatics Canada,1997 Native geographical names have a very special place in the toponymy of Canada This specialized toponymic bibliography is the first of its kind in Canada to be developed from a data base covering the whole country Of particular assistance to users are the annotations which accompany nearly all the 1240 entries In addition to over 1000 records on Native Canadian toponymy have also been included for comparison purposes some records on Native toponymy in other countries A Research Guide to Cartographic Resources Eva H. Dodsworth,2018-09-22 The interdisciplinary uses of traditional cartographic resources and modern GIS tools allow for the analysis and discovery of information across a wide spectrum of fields A Research Guide to Cartographic Resources navigates the numerous American and Canadian cartographic resources available in print and online offering researchers academics and students with information on how to locate and access the large variety of resources new and old

Dozens of different cartographic materials are highlighted and summarized along with lists of map libraries and geospatial centers and related professional associations A Research Guide to Cartographic Resources consists of 18 chapters two appendices and a detailed index that includes place names and libraries structured in a manner consistent with most reference guides including cartographic categories such as atlases dictionaries gazetteers handbooks maps plans GIS data and other related material Almost all of the resources listed in this guide are categorized by geography down to the county level making efficient work of the type of material required to meet the information needs of those interested in researching place specific cartographic related resources Additionally this guide will help those interested in not only developing a comprehensive collection in these subject areas but get an understanding of what materials are being collected and housed in specific map libraries geospatial centers and their related websites Of particular value are the sections that offer directories of cartographic and GIS libraries as well as comprehensive lists of geospatial datasets down to the county level This volume combines the traditional and historical collections of cartography with the modern applications of GIS based maps and geospatial datasets
