Good Government Nordic And East Asian Perspectives:

Good Government Geir Helgesen, Uichol Kim, 2002 Six Countries in Brief **Indigenous and Cultural Psychology** Uichol Kim, Kuo-Shu Yang, Kwang-Kuo Hwang, 2006-04-19 Indigenous psychology is an emerging new field in psychology focusing on psychological universals in social cultural and ecological contexts Starting point for psychologists who wish to understand various cultures from their own ecological historical philosophical and religious perspectives *Handbook of Motivation and Cognition Across Cultures* Richard Sorrentino, Susumu Yamaguchi, 2011-04-28 In recent years there has been a wealth of new research in cognition particularly in relation to supporting theoretical constructs about how cognitions are formed processed reinforced and how they then affect behavior Many of these theories have arisen and been tested in geographic isolation It remains to be seen whether theories that purport to describe cognition in one culture will equally prove true in other cultures The Handbook of Motivation and Cognition Across Cultures is the first book to look at these theories specifically with culture in mind The book investigates universal truths about motivation and cognition across culture relative to theories and findings indicating cultural differences Coverage includes the most widely cited researchers in cognition and their theories as seen through the looking glass of culture The chapters include self regulation by Tory Higgins unconscious thought by John Bargh attribution theory by Bernie Weiner and self verification by Bill Swann among others The book additionally includes some of the best new researchers in cross cultural psychology with contributors from Germany New Zealand Japan Hong Kong and Australia In the future culture may be the litmus test of a theory before it is accepted and this book brings this question to the forefront of cognition research Includes contributions from researchers from Germany New Zealand Japan Hong Kong and Australia for a cross cultural panel Provides a unique perspective on the effect of culture on scientific theories and data Progress in Psychological Science Around the World. Volume 2: Social and Applied Issues Qicheng Jing, Mark R. Rosenzweig, Gery d'Ydewalle, Houcan Zhang, Hsuan-Chih Chen, Kan Zhang, 2019-05-23 Progress in Psychological Science around the World Volumes 1 and 2 present the main contributions from the 28th International Congress of Psychology held in Beijing in 2004 These expert contributions include the Nobel laureate address the Presidential address and the Keynote and State of the Art lectures They are written by international leaders in psychology from 25 countries and regions around the world The authors present a variety of approaches and perspectives that reflect cutting edge advances in psychological science This second volume builds on the coverage of neural cognitive and developmental issues from the first volume to address social and applied issues in modern psychology The topics covered include educational psychology and measurement health psychology and social and cultural psychology Organizational applied and international psychology are also discussed Progress in Psychological Science around the World with its broad coverage of psychological research and practice and its highly select group of world renowned authors will be invaluable for researchers professionals teachers and students in the field of psychology **Islandology** Marc Shell, 2014-10-08

Islandology is a fast paced fact filled comparative essay in critical topography and cultural geography that cuts across different cultures and argues for a world of islands The book explores the logical consequences of geographic place for the development of philosophy and the study of limits Greece and for the establishment of North Sea democracy England and Iceland explains the location of military hot spots and great cities Hormuz and Manhattan and sheds new light on dozens of world historical productions whose motivating islandic aspect has not heretofore been recognized Shakespeare s Hamlet and Wagner s Ring of the Nibelung Written by Shell in view of the melting of the world s great ice islands Islandology shows not only new ways that we think about islands but also why and how we think by means of them Democracy and Authority in Korea Geir Helgesen,2014-06-03 This controversial new study breaks with the tradition of basing political studies on analyses of institutions and political personalities by likening the Republic of Korea to a laboratory for the clash of political cultures In the late 1940s the Americans embarked upon a democratization programme designed to create a Western bulwark against the spread of communism in East Asia The intervening years have seen the advent and demise of military rule with South Korea now having a democratically elected government Although the US strategy thus seems successful the political crises of 1995 in fact indicate that many obstacles remain here to the adoption of Western style democracy This study argues that socialization in general and political socialization in particular are key factors in any analysis of democracy be it in Korea or elsewhere Accordingly the work draws on moral education textbooks together with surveys and interviews among members of the urban intellectual elite In this manner the psychological roots of power and authority key concepts to an understanding of good government are explored Global Constitutionalism from European and East Asian Perspectives Takao Suami,Anne Peters,Dimitri Vanoverbeke,Mattias Kumm,2018-11-29 Examines and compares East Asian and European perspectives of Global Constitutionalism **Politics, Culture and Self** Geir Helgesen,Søren Risbjerg Thomsen,2006 Globalization may be undermining Kipling s assertion that East is East and West is West but arguably this is more in the realms of technological advances and consumer behaviour than say in political culture In the latter arena much is still made of the contrasts between Eastern culture characterized by collectivism and belief in authority and Western culture characterized by individualism and belief in democracy Such comfortable assumptions will be shattered for readers of Politics Culture and Self This volume indeed confirms that differences between East Asia and northern Europe do exist Provocatively however it also points to major similarities e g regarding social harmony and the role of the family in society as well as significant contrasts mirrored within the two regions e g concerning interpersonal and institutional trust These results are of especial interest because of the care taken to reduce cultural contamination The data is derived from extensive and in depth surveys conducted by a crosscultural research team in East Asia and northern Europe Here methodological techniques were used to control for non cultural differences as well as cultural variation in how people respond to questionnaires This survey data is augmented by a wealth of historical and analytical contexts that will make the book an

essential item in the library of anyone concerned with issues relating to political behaviour at all levels **Globalization and Democratization in Asia** Kristina Jonsson, Catarina Kinnvall, 2003-09-02 Globalization is a defining feature of our times covering everything from economic and political issues to the spread of American culture Its status is controversial however with some viewing it as leading to greater development for all while others see it as a threat to national cultures and democratic political life This book shows how simplified such binary views are and examines how various globalizing forces have affected Asian societies It discusses the relationship between globalization identity and democratic developments in Asia both theoretically and empirically and aims to understand how economic political and social forces interact and are mutually reinforced in Asian societies Asian Perspective ,2006 The Challenge of Mobility in the Baltic Sea Region Catherine-F. Gicquel, Victor Makarov, Magdalena Żółkoś, 2005 **Korean Social Science Journal** ,2002 **International Conference Asian Values and Vietnam's Development in Comparative Perspectives** Irene Nørlund, 2000 *Asian Societies in Comparative Perspective* Nordic Association for Southeast Asian Studies. Annual Conference, Olle Törnquist, 1991 Asia's New Geopolitics Desmond Ball, Lucie Béraud-Sudreau, Tim Huxley, C. Raja Mohan, Brendan Taylor, 2021-09-28

Intensifying geopolitical rivalries rising defence spending and the proliferation of the latest military technology across Asia suggest that the region is set for a prolonged period of strategic contestation None of the three competing visions for the future of Asian order a US led Free and Open Indo Pacific a Chinese centred order or the ASEAN inspired Indo Pacific Outlook is likely to prevail in the short to medium term In the absence of a new framework the risk of open conflict is heightened and along with it the need for effective mechanisms to maintain peace and stability As Asia's leaders seek to rebuild their economies and societies in the wake of COVID 19 they would do well to reflect upon the lessons offered by the pandemic and their applicability in the strategic realm The societies that have navigated the crisis most effectively have been able to do so by putting in place stringent protective measures Crisis management and avoidance mechanisms and even in the longer term wider arms control can be seen as the strategic equivalent of such measures and as such they should be pursued with urgency in Asia to reduce the risks of an even greater calamity **Inside the World's Major East Asian Collections** Patrick Lo, Dickson KW Chiu, Allan Cho, 2017-05-03 Inside the World's Major East Asian Collections examines the rise of the LAM an acronym that stands for libraries archives and museums In doing so this book profiles leading experts librarians archivists and museum curators who specialise in East Asian collections from across the world In examining the dynamically shifting role of the cultural institution in the context of managing information and collections this book provides important themes offered by these cultural experts in understanding the necessary professional skills knowledge and personalities that are required for working in such environments of varying size scope and composition in LAMs As galleries LAMs manage preservation and access of history and culture and their missions and goals as cultural institutions continue to converge As collecting institutions LAMs share the common mandate to preserve and make accessible primary resources
