in whom society has invested most heavily underperform underachieve and underproduce Why this is so and how it occurs in
the focus of this book The sociologist's special tools of analysis are used to identify the social factors that assign women to

showing how to make each amazing and how to overcome the roadblocks in each area we often encounter Drawing on survey
results from over 2 000 people she also includes lots of voices from other Good Girls giving insight into how other women
have learned to truly enjoy sex in marriage *Constructing American Lives* Scott E. Casper, 2018-07-25 Nineteenth century
American authors critics and readers believed that biography had the power to shape individuals' characters and to help
define the nation's identity In an age predating radio and television biography was not simply a genre of writing says Scott
Casper it was the medium that allowed people to learn about public figures and peer into the lives of strangers In this

pioneering study Casper examines how Americans wrote published and read biographies and how their conceptions of the genre changed over the course of a century Campaign biographies memoirs of pious women patriotic narratives of eminent statesmen mug books that collected the lives of ordinary midwestern farmers all were labeled biography however disparate their contents and the contexts of their creation publication and dissemination Analyzing debates over how these diverse biographies should be written and read Casper reveals larger disputes over the meaning of character the definition of American history and the place of American literary practices in a transatlantic world of letters As much a personal experience as a literary genre biography helped Americans imagine their own lives as well as the ones about which they wrote and read
