Wittgenstein and Modernist Fiction Greg Chase,2022-02-08 The early decades of the twentieth century were a period of major economic and cultural upheaval across Europe and America Scholars have typically held that novelists responded to these shifts by questioning language s capacity to picture the world accurately But even as modernist novels move away from a view of language as a means of gaining knowledge they also underscore its capacity to grant acknowledgment they treat words as tools for recognizing and responding to the inner lives of others This book brings out this crucial feature of modernism by engaging with the philosophy of Ludwig Wittgenstein and with Stanley Cavell s pioneering interpretation of Wittgenstein s thought The book shows how Wittgenstein s interest in acknowledgment emerges over the course of his career long effort to grapple with the same disorienting conditions of modern life that the experimental fiction of this period registers including world wars industrialization and new conceptions of sexuality It then argues that modernist novels by E M Forster Virginia Woolf Nella Larsen William Faulkner and others exhibit a similar interest in language s capacity to grant acknowledgment These novels offer readers a way of hearing what Wittgenstein calls the silent soliloquy of others giving us words by which we might acknowledge the otherwise unvoiced inner lives of socially marginalized figures
