**London's 'Big Bang' Moment and its Architectural Conversations** Stephen Rosser, 2025-06-30 This book explores the topic of architecture as a component of public discourse focussing on the reception of four high profile developments in the City of London the UK capital's financial district dating from the final years of the twentieth century During this time the City's mode of operation culture and built

environment were all transformed as a result of the market deregulation process labelled Big Bang. It was also a period which saw the subject of architecture attracting public and media attention becoming a prominent feature of national conversation. The book examines the extensive and often contentious discourse generated by the four case study projects. It looks at how these projects were viewed and interpreted retrospectively when they had become part of the City's long and rich history. Topics explored include building and urban form on the eve of the millennium, the place of new development in a setting of unique historic importance, the iconic building and celebrity architect and the role of then Prince Charles as an architectural critic. Also referenced are many of the broader issues of the day including the Thatcher government policies and the preoccupations concerning London's infrastructure, public realm, inner city areas and inequalities. Furthermore, ranging across the discourse is the theme of the relationship between buildings and global finance, foreshadowing later controversies concerning London's post-millennial towers and their impact on the capital's skyline. The book will be of interest to researchers and students of late twentieth century British architecture and urban development, London's history and UK public discourse in the 1980s, a decade of profound political, economic and social change.

[Pedro and Ricky Come Again](#) Jonathan Meades, 2021-03-18 This landmark publication collects three decades of writing from one of the most original, provocative and consistently entertaining voices of our time. Anyone who cares about language and culture should have this book in their life. Thirty years ago Jonathan Meades published a volume of reportorial journalism, essays, criticism, squibs and fictions called *Peter Knows What Dick Likes*. The critic James Wood was moved to write: 'When journalism is like this, journalism and literature become one.' *Pedro and Ricky Come Again* is every bit as rich and catholic as its predecessor. It is bigger, darker, funnier and just as impervious to taste and manners. It bristles with wit and pin-sharp eloquence, whether Meades is contemplating northernness in a German forest or hymning the virtues of slang. From the indefensibility of nationalism and the ubiquitous abuse of the word 'iconic' to John Lennon's shopping lists and the wine they call Black Tower, the work assembled here demonstrates Meades's unparalleled range and erudition with pieces on cities, artists, sex, England, concrete, politics and much, much more.

Preiser,Brenda Case Scheer,2017-08-03 First published in 1992 this book collects together the papers presented at the International Symposium on Design Review which was held to address the growing tendency of local governments to institute programs of aesthetic control The editor argues that the widespread adoption of design review processes in the years preceding the conference necessitated thoroughgoing professional criticism and a number of areas of debate are identified and addressed in the subsequent papers Are the difficulties experienced by planners community activists and architects with the process due to its relative youth or inherent flaws in the entire concept How should mechanical problems like time and expense the ease with which the process can be manipulated and general inefficiencies in the system be resolved More intricate problems are also addressed such as who has the power to judge the aesthetic quality of a building whether design review infringes on the rights of the individual especially under the First Amendment whether the design review process is fair and the difficulty for the reviewer of deciding what is right and what is wrong having taken into account factors that can be highly subjective or contradict more practical concerns **Conservation in the Age of**

Parsons Drake and Buckley were three young musicians who died before they had made their mark on the musical world yet left behind them a legacy that was as rich as it was beautiful Ex preacher Parsons was outrageous outspoken but impeccably polite He recorded with various bands including The Flying Burrito Brothers The Byrds and very nearly the Rolling Stones His light shone brightly but briefly before his mysterious death and more bizarre cremation at the age of 26 Almost a polar opposite Nick Drake was intensely shy with crippling stage fright who made less than 40 public appearances Handsome yet fragile he composed beautiful melodies He sank into depression in the family home before overdosing on medication whether deliberate or not nobody knows at the age of 26 Jeff Buckley s vocal range spanned an astonishing four octaves He could sing any style from Piaf to Gershwin from scat and jazz to Oum Kalthoum alongside his own superb realist compositions In 1997 on the brink of stardom he never returned from a fully clothed swim in the Mississippi River Only in death was the true potential of these talented young men appreciated their songs still appearing in ads and Buckley had his first number 1 in 2008 With every passing year their legends grow And posthumously they have influenced a whole host of singers who now crowd the charts on both sides of the Atlantic This is their remarkable story David Bret was born in Paris His acclaimed books include biographies of Marlene Dietrich Morrissey Freddie Mercury and Edith Piaf among many others      New Labour and the European Union Oliver Daddow, 2013-01-18

This book explores Tony Blair and Gordon Brown s attempt to sell the European ideal to the British people New Labour came to power in 1997 promising to modernize the country and make it fit for the twenty first century In foreign policy Blair and Brown set about rethinking core components of the British national identity especially the country s relationship to its past and its role in the world Rebranding Britain they argued meant helping the British people feel comfortably at home in the European Union What did New Labour achieve and did its European policy succeed How did Blair and Brown try and persuade the British to accept a European future What were the obstacles they faced and the strategies they used to overcome them This timely study of New Labour s effort to build a pro European consensus in Britain argues that the government failed to live up to its early promises Based on evidence from well over one hundred of Blair and Brown s foreign policy speeches supplemented by interviews with policy makers advisers and speech writers from the time the book is sympathetic to the challenge New Labour set itself but also critical of the rhetorical techniques it used to advance the Europeanist cause Trapped between a broadly hostile media and an apathetic public Blair and Brown failed to provide the necessary leadership to see Britain to a European future Theoretically informed empirically

robust and methodologically innovative this novel book will appeal to anyone interested in contemporary British foreign policy the New Labour project and Euroscepticism in Britain
