Comaroff, 2015-11-17 As nation states in the Northern Hemisphere experience economic crisis political corruption and racial tension it seems as though they might be evolving into the kind of societies normally associated with the Global South Anthropologists Jean and John Comaroff draw on their long experience of living in Africa to address a range of familiar themes democracy national borders labour and capital and multiculturalism They consider how we might understand these issues by using theory developed in the Global South Challenging our ideas about developed and developing nations Theory from the South provides new insights into key problems of our time *Thinking Politically* Raymond Aron, 2020-03-12 Thinking Politically brings together a series of remarkable interviews with Raymond Aron that form a political history of our time Ranging over an entire lifetime from his youthful experience with the rise of Nazi totalitarianism in Berlin to the d nouement of the cold war Aron mediates on the threats to liberty and reason in the bloody twentieth century Originally published as The Committed Observer this volume provides one of the fullest accounts available of the dramatic events of the short century which began with the pistol shot in Sarajevo in 1914 and ended with the collapse of the ideological monsters whose deadly nature Aron had ruthlessly exposed for a half century In addition to the interviews published in the original edition Thinking Politically incorporates three interviews never before published in book form This supplemental material clarifies Aron s role as a voice of prudential reason in an unreasonable age and allows unparalled access to the principal influences on Aron s thought The volume concludes with Democratic States and Totalitarian States an address by Aron to the French Philosophical Society as well as the accompanying debate with Jacques Maritain Victor Basch and other intellectuals Thinking Politically serves as an ideal gateway into Aron s reflections and offers a superb single volume introduction to the major events and conflicts of the
