Gorse Fires:

Gorse Fires Michael Longley, 1991 **New Zealand Journal of Agricultural Research**, 1980 *The Great War in Irish Poetry* Fran Brearton, 2003 *The Great War in Irish Poetry* explores the impact of the First World War on the work of W B Yeats Robert Graves and Louis MacNeice in the period 1914-45 and on three contemporary Northern Irish poets Derek Mahon Seamus Heaney and Michael Longley Its concern is to place their work and memory of the Great War in the context of Irish politics and culture in the twentieth century The historical background to Irish involvement in the Great War is explained as are the ways in which issues raised in 1912-20 still reverberate in the politics of remembrance in Northern Ireland particularly through such events as the Home Rule cause the loss of the Titanic the Battle of the Somme the Easter Rising While the Great War is perceived as central to English culture and its literature holds a privileged position in the English literary canon the centrality of the Great War to Irish writing has seldom been recognised This book shows first that despite complications in Irish domestic politics which led to the repression of memory of the Great War Irish poets have been drawn throughout the century to the events and images of 1914-18 This engagement is particularly true of those writing in the troubled Northern Ireland of the last thirty years The second main concern is the extent to which recognition of the importance of the Great War in Irish writing has itself become a casualty of competing versions of the literary canon

Wainui Days Philip Marshall, 2010-04 What was it like to grow up in Wainuiomata between 1955 and 1970 Philip Marshall and his family were newcomers to the valley in 1955 Here he tells the story of the many changes that happened over the 15 years until 1970 when the family moves on **Tongue of Water, Teeth of Stones** Jonathan Hufstader, 2021-12-14 In a 1984 lecture on poetry and political violence Seamus Heaney remarked that the idea of poetry was itself that higher ideal to which the poets had unconsciously turned in order to survive the demeaning conditions Jonathan Hufstader examines the work of Heaney and his contemporaries to discover how poems combining conscious technique with unconscious impulse work as aesthetic forms and as strategies for emotional survival In his powerful study Hufstader shows how a number of contemporary Northern Irish poets including Seamus Heaney Derek Mahon Michael Longley Paul Muldoon Tom Paulin Ciarán Carson and Medbh McGuckian explore the resources of language and poetic form in their various responses to cultural conflict and political violence Focusing on both style and social contexts Hufstader explores the tension between solidarity and art between the poet's need to belong and to rebel He believes that an understanding of the power of lyric points towards an understanding of the source of social violence and of its cessation

Towards a Warmer World Veronika Meduna, 2015-11-09 The year 2014 was the hottest on record since we've begun collecting global temperature measurements in 1880. Even at its midway point, 2015 was already promising to take over this dubious record. As new thresholds are breached, acclaimed Radio New Zealand science writer Veronika Meduna explores our future in a warmer world. Beginning with lessons from our ancient geological past, this BWB Text draws on current observations and increasingly sophisticated climate models to describe possible end-of-century scenarios for New Zealand. Distorted ecosystems, extreme weather, new landscapes, and adapted foods are just some of the likely changes that amount to a radically different future for our country.

Death to the Death of Poetry Donald Hall, 2021-08-02 Donald Hall believes that American poetry at the present moment thrives both in quality and in leadership. In his latest collection of essays, reviews, and interviews, Hall counters the increasingly publicized view that poetry has an ever-diminishing importance in contemporary American culture. He resents the endlessly repeated cliché that finds poetry unpopular and losing popularity. Thus, *Death to the Death of Poetry*. Throughout the pages of this latest offering in the Poets on Poetry series, Hall returns again and again to the theme of poetry's health and offers essays praising contemporary poets who serve as examples of poetry's thriving condition. In addition, *Death to the Death of Poetry* collects interviews in which Hall discusses the work of poetry, revisions, standards, the psychology and sociology of the poet's life. The collection will be warmly received by Donald Hall's large readership, enhanced in 1993 by publication of two exemplary volumes: *The Museum of Clear Ideas*, his eleventh book of poetry, and his essay *Life Work*, which brought him both new and returning readers.
