Gosta Werner:

The Emergence of Film Culture Malte Hagener, 2014-09-01 Between the two world wars a distinct and vibrant film culture emerged in Europe Film festivals and schools were established film theory and history was written that took cinema seriously as an art form and critical writing that created the film canon flourished This scene was decidedly transnational and creative overcoming traditional boundaries between theory and practice and between national and linguistic borders This new European film culture established film as a valid form of social expression as an art form and as a political force to be reckoned with By examining the extraordinarily rich and creative uses of cinema in the interwar period we can examine the roots of film culture as we know it today *A Cultural History of the Avant-Garde in the Nordic Countries 1900-1925* Hubert van den Berg, Marianne Ølholm, Benedikt Hjartarson, Irmeli Hautamäki, Torben Jelsbak, Rikard Schönström, Per Stounbjerg, Tania Ørum, Dorthe Aagesen, 2012 A Cultural History of the Avant Garde in the Nordic Countries 1900 1925 is the first publication to deal with the avant garde in the Nordic countries at the start of the twentieth century The essays cover a wide range of avant garde manifestations in arts and culture literature the visual arts painting as well as photography architecture and design film radio and performing arts like music theatre and dance It is the first major historical work to consider the Nordic avant garde in a transnational perspective which includes all the arts and to discuss the role of the avant garde not only within the aesthetic field but in a broader cultural context It examines the social and cultural context of the avant garde its media its locations its reception and audiences the transmissions between Scandinavia and Europe and its cultural consequences The essays trace the connections between the avant garde and the cultural discourses of contemporary currents such as revolutionary socialism radical nationalism and occultism and discuss questions of gender ideology and politics geographical location and technological innovation The cultural history thus focuses on the role of the avant garde in shaping the ideas of cultural modernity in the Nordic countries **Gösta Werner**, 1962 *The Life and Afterlife of Swedish Biograph* Jan Olsson, 2022-12-13 Sweden's early film industry was dominated by Swedish Biograph Svenska Biografteatern home to star directors like Victor Sjöström and Mauritz Stiller It is nostalgically remembered as the generative site of a nascent national artform encapsulating a quintessentially Nordic aesthetic the epicenter of Sweden's cinematic Golden Age In *The Life and Afterlife of Swedish Biograph* veteran film scholar Jan Olsson takes a hard look at this established romanticized narrative and offers a far more complete complex and nuanced story Nearly all of the studio's original negatives were destroyed in an explosion in 1941 but Olsson's comprehensive archival research shows how the company operated in a commercial international arena and how it was influenced not just by Nordic aesthetics or individual genius but also by foreign audiences expectations technological demands Hollywood innovations and the gritty back and forth between economic pressures government interference and artistic desires Olsson's focus is wide encompassing the studio's production practices business affairs and cinematographic conventions as well as the latter day archival efforts that

both preserved and obscured parts of Swedish Biograph's story helping construct the company's rosy legacy The result is a necessary rewrite to Swedish film historiography and a far fuller picture of a canonical film studio *Swedish Film* Mariah Larsson, Anders Marklund, 2012-01-02 A compilation of carefully selected articles written by international film scholars this record provides an in depth look into the history of Swedish film This scholarly account covers various phenomena including the early screenings at the turn of the century Swedish censorship the golden age of silent films 1930s comedies and melodramas documentaries pornography and experimental films In addition this volume examines the work of important contributors such as Ingmar Bergman Stefan Jarl and Peter Weiss and discusses film policies of the new millennium *Film and Literary Modernism* Robert P. Research Libraries,1967 *Shell Shock Cinema* Anton Kaes,2009-08-24 How war trauma haunted the films of Weimar Germany *Shell Shock Cinema* explores how the classical German cinema of the Weimar Republic was haunted by the horrors of World War I and the the devastating effects of the nation s defeat In this exciting new book Anton Kaes argues that masterworks such as *The Cabinet of Dr Caligari* *Nosferatu* *The Nibelungen* and *Metropolis* even though they do not depict battle scenes or soldiers in combat engaged the war and registered its tragic aftermath These films reveal a wounded nation in post traumatic shock reeling from a devastating defeat that it never officially acknowledged let alone accepted Kaes uses the term shell shock coined during World War I to describe soldiers suffering from nervous breakdowns as a metaphor for the psychological wounds that found expression in Weimar cinema Directors like Robert Wiene F W Murnau and Fritz Lang portrayed paranoia panic and fear of invasion in films peopled with serial killers mad scientists and troubled young men Combining original close textual analysis with extensive archival research Kaes shows how this post traumatic cinema of shell shock transformed extreme psychological states into visual expression how it pushed the limits of cinematic representation with its fragmented story lines distorted perspectives and stark lighting and how it helped create a modernist film language that anticipated film noir and remains incredibly influential today A compelling contribution to the cultural history of trauma *Shell Shock Cinema* exposes how German film gave expression to the loss and acute grief that lay behind Weimar s sleek fa ade *The Senses of Modernism* Sara Danius,2019-01-24 In *The Senses of Modernism* Sara Danius develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann s *The Magic Mountain* Marcel Proust s *Remembrance of Things Past* and James Joyce s *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danius proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danius

explores how perception notably sight and hearing is staged in the three most significant modern novels in German French and British literature *The Senses of Modernism* connects technological change and formal innovation to transform the study of modernist aesthetics Danisus questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one Nordic Explorations John Fullerton, Jan Olsson, 1999 *Nordic Explorations Film Before 1930* includes twenty previously unpublished essays written for the 1999 retrospective of Nordic cinema at la Giornate del Cinema Muto in Italy It brings together leading research on early cinema in Denmark Finland Norway and Sweden and includes essays on some of the major figures in Nordic cinema including Dreyer Christensen Sjostrom and Stiller Much current research in Nordic film before 1930 is also represented in this anthology with studies of the Norwegian travel genre Nordic animated film the relation of Nordic cinema to German and Russian film the development of educational cinema and industrial film as well as studies of individual films filmmakers and national styles and the relation of the medium to other forms of popular entertainment The essays make a timely contribution to the more general study of cinema afford authoritative and stimulating insight into research in the field and challenge many assumptions regarding Nordic cinema before 1930 The Strange Case of Dr. Mabuse David Kalat, 2005-04-19 The Mabuse phenomenon is recognized as an icon of horror in Germany as Frankenstein and Dracula are in the United States A study of the 12 motion pictures and five books and some secondary films that make up the eight decades of adventures of master criminal Mabuse created by author Norbert Jacques in the best selling 1922 German novel and brought to the screen by master filmmaker Fritz Lang in the same year Both on screen and off the story of Dr Mabuse is a story of love triangles and revenge of murder suicides and suspicious deaths of betrayals and paranoia of fascism and tyranny deceptions and conspiracies mistaken identities and transformation This work featuring much information never before published in English provides an understanding of a modern mythology whose influence has pervaded popular culture even while the name Mabuse remains relatively unknown in the United States *Joyce, Multilingualism, and the Ethics of Reading* Boriana Alexandrova, 2020-09-16 What if our notions of the nation as a site of belonging the home as a safe place or the mother tongue as a means to fluent comprehension did not apply What if fluency were a hindrance whilst our differences and contradictions held the keys to radical new ways of knowing Taking inspiration from the practice of language learning and translation this book explores the extraordinary creative possibilities politics and ethics of adopting a multilingual approach to reading Its case study James Joyce's *Finnegans Wake* 1939 is a text in equal measures exhilarating and exasperating an unhinged portrait of European modernist debates on transculturalism and globalisation here considered on the backdrop of current discourses on migration race gender and neurodiversity This book offers a fresh perspective on the illuminating if perplexing work of a beloved European modernist whilst posing questions far beyond Joyce on negotiating difference in an

increasingly globalised world on braving the difficulty of relating across languages and cultures and ultimately on imagining possible futures where multilingual literature can empower us to read relate and conceptualise differently **H. G. Wells, Modernity and the Movies** Keith Williams, 2007-12-01 This book investigates Wells's interest in cinema and related media technologies by placing it back into the contemporary cultural and scientific contexts giving rise to them It plugs a gap in understanding Wells's contribution to exploring and advancing the possibilities of cinematic narrative and its social and ideological impacts in the modern period Previous studies concentrate on adaptations this book accounts for the specifically proto cinematic techniques and concerns of Wells's texts It also focuses on contemporary film making in dialogue with his ideas Alongside Hollywood's later transactions it gives equal weight to neglected British and continental European dimensions Chapter 1 shows how early writings *The Time Machine* and short stories feature many kinds of radically defamiliarised vision These constitute imaginative speculations about the forms and potentials of moving image and electronic media Chapter 2 discusses the power of voyeurism absent presence and the disjunction of sound image reproduction implied in *The Invisible Man* and its topical politics updated in notable screen versions Chapter 3 extends this to dystopian warnings of systematic surveillance broadcasting of celebrity personae and post literate video culture in *When the Sleeper Wakes* a crucial template for urban futures on film Chapter 4 analyses Wells's belated return to screenwriting in the 1930s It accounts for his broadbrow ambition of mediating between popular and avant garde tendencies to promote his cause and its mixed results in *Things to Come* *The Man Who Could Work Miracles* etc Chapter 5 finally surveys Wells's legacy on both small and large screens It considers whether as well as being raided for scenarios for spectacular effects his subtexts still nourish an evolving tradition of alternative SF which duly critiques the innovations and applications of its host media

The Rise and Fall of the German Democratic Republic Feiwel Kupferberg, 2017-12-04 Most public debate on reunited Germany has emphasized economic issues such as the collapse of East German industry mass unemployment career difficulties and differences in wages and living standards The overwhelming difficulty resulting from reunification however is not persisting economic differences but the internal cultural divide between East and West Germans one based upon different moral values in the two Germanies The invisible wall that has replaced the previous highly visible territorial division of the German nation is rooted in issues of the past the Nazi past as well as the German Democratic Republic past In emphasizing economic differences the media and academics have avoided dealing with typically German cultural traits These include the psychological posture of West Germany which emphasized not differences between East and West but the break with Germany's Nazi past The adversarial posture of certain professional groups in East Germany towards the liberal and democratic values of West Germany have also been an obstacle Reviewing the problems accompanying reunification chapter 1 explores German culture and history and the moral lessons evolved from the Nazi past Chapter 2 focuses on the East West mindset and how differences in attitude affect efforts to adapt to

reunification Chapter 3 discusses the simulated break with Nazi Germany in the German Democratic Republic Chapters 4 5 and 6 analyze the roots of the adversary posture of the professional groups in East Germany towards the values of the Berlin Republic Chapter 7 demonstrates the strong presence of inherited typically German cultural traits among East Germans such as a lack of individualism suspicion of strangers and obedience to authority Chapter 8 documents the extent to which a right wing extremist culture has remained latent in Eastern Germany Chapter 9 documents the extent to which moral reasoning in the GDR relieves the individual of any kind of responsibility for the actions of the state reproducing the way ordinary Germans rationalized their participation in the Nazi regime immediately after World War II Chapter 10 concludes with an overview of the historical and sociological factors revolving around the discussion of Nazi Germany the GDR and inner unification This volume will be important for historians political scientists anthropologists sociologists and a general public interested in Germany's reunification
