## Gosudarstvennoe Stroitelstvo I Pravo:

**The End Of Soviet Politics** Brendan Kiernan, 2019-09-06 The author examines the intent and the unexpected side effects of Gorbachev's policy of demokratizatsiia on the Soviet political system His analysis traces the emergence of competitive multiparty politics drawing from interviews and primary materials collected during 15 months 1988-1990 in the Soviet Union , Review of Socialist Law , 1982 **National Union Catalog** , 1978 Includes entries for maps and atlases **Social Sciences in the USSR.** Akademii [a] nauk SSSR., International Social Science Council, 1965 **From Conquest to Deportation** Jeronim Perovic, 2018-06-01 A synoptic history of Imperial and Soviet Russian conquest and colonization of the North Caucasus International Encyclopedia of Comparative Law , The British Library General Catalogue of Printed Books, 1986 to 1987 British Library, 1988 Ferghana Valley S. Frederick Starr, 2014-12-18 The Ferghana Valley can reasonably be said to lie in the heart of Central Asia As such the Valley has made an inordinate contribution to the history and culture of the region as a whole as well as significantly affecting the economic political and religious spheres This book looks at the region over time from its early history to the present It embraces not just the obvious fields of politics economics and religion but also ethnography sociology and culture and includes the insights of leading scholars from all three Ferghana countries The book discusses various questions of identity relating to the region showing how the identity of the Ferghana Valley relates to the emerging national identities of the three post colonial states that are still gradually emerging from the demise of the Soviet Union as well as how an understanding of the Ferghana Valley is key to understanding Central Asia itself *From Conflict to Autonomy in the Caucasus* Arsène Saparov, 2014-08-27 This book is the first historical work to study the creation of ethnic autonomies in the Caucasus in the 1920s the transitional period from Russian Empire to Soviet Union Seventy years later these ethnic autonomies were to become the loci of violent ethno political conflicts which have consistently been blamed on the policies of the Bolsheviks and Stalin According to this view the Soviet leadership deliberately set up ethnic autonomies within the republics thereby giving Moscow unprecedented leverage against each republic *From Conflict to Autonomy in the Caucasus* questions this assumption by examining three case studies Abkhazia South Ossetia and Nagorno Karabakh are placed within the larger socio political context of transformations taking place in this borderland region during the nineteenth and twentieth centuries It examines demographic social and economic consequences of the Russian colonization and resulting replacement of traditional societies and identities with modern ones Based on original Russian language sources and archival materials the book brings together two periods that are usually studied separately the period of the Russian Civil War 1917-20 and the early Soviet period in order to understand the roots of the Bolshevik decision making policy when granting autonomies It argues that rather than being the product of blatant political manipulation this was an attempt at conflict resolution The institution of political autonomy however became a powerful tool for national mobilization during the Soviet era Contributing both to the general understanding of the early

Soviet nationality policy and to our understanding of the conflicts that have engulfed the Caucasus region since the 1990s this book will be of interest to scholars of Central Asian studies Russian Soviet history ethnic conflict security studies and International Relations Bibliographic Guide to Soviet and East European Studies ,1979 Library of Congress Catalogs Library of Congress,1979 **International Labour Documentation** International Labour Office. **Soviet Law and Soviet Society** George C. Guins,2012-12-06 Soviet power rests on two main supports the complete economic dependence of the citizens upon the state and the unlimited political control of the government over the economic social and even cultural life History knows various kinds of despotisms dictatorships and regimentations of economic activity but the U S S R represents a unique kind of dictatorship based on the one party system and integral planning with the specific goal of realization of communism Mankind had never before known such a system Even the best of possible comparisons the analogy with the period of Ptolemies in Egypt is good only in so far as it concerns the regimentation of all kind of economic activity There was in the past no ideology pretending to be adjusted to the needs of the toiling masses no planning system on the same scale and no Communist party apparatus As concerns the modern world the comparative method is necessary for giving the most graphical characterization of the differences between the Western democracies with their ethical traditions rule of law and the principle of the inviolability of individual rights and on the other hand the Soviet monolithic state with its unscrupulous policy extremities of regimentations and drastic penalties **Marxism, Communism and Western Society** Claus Dieter Kernig,1973
