Gothic Literature Prof. Andrew Smith, 2007 This introductory study provides a thorough grounding in both the history of Gothic literature and the way in which Gothic texts have been and can be critically read. The book opens with a chronology and an introduction to the principal texts and key critical terms, followed by four chapters. The Gothic Heyday 1760-1820, Gothic 1820-1865, Gothic Proximities 1865-1900, and the Twentieth Century. The discussion examines how the Gothic has developed in different national contexts and in different forms, including novels, novellas, poems, and films. Each chapter concludes with a close reading of a specific text: *Frankenstein*, *Jane Eyre*, *Dracula*, and *The Silence of the Lambs*, to illustrate the ways in which contextual discussion informs critical analysis. The book ends with a conclusion outlining possible future developments within scholarship on the Gothic. Key Features: Provides a single comprehensive and accessible introduction to Gothic literature; Offers a coherent account of the historical development of the Gothic in a range of literary and national contexts; Introduces the ways in which critical theories of class, gender, race, and national identity have been applied to Gothic texts; Includes an outline of essential resources and a guide to further reading.
