Thoroughly researched and documented by industry experts, it presents the widest range of mental health services available to youth and their families. Areas of coverage include specific modalities in service delivery including inpatient and day treatment facilities, pediatric hospitals and community mental health centers as well as rural, school and primary care settings. Services tailored to special populations such as adolescent sex offenders, homeless children and their families, children with chronic illness, oppositional teens, abuse situations and children exposed to traumatic events. Details on preventative programs for child abuse, substance abuse, STD's and gang violence.
