Handbook On Chinas Wto Accession And Its Impacts:

Handbook On China's Wto Accession And Its Impacts Cheong Ching, Hung-yee Ching, 2003-06-20 It has taken China 15 long years of tough negotiations to achieve accession to the World Trade Organization WTO By becoming a full member of the WTO China has in fact made three tiers of commitments The first tier is the commitment to the objectives of the WTO such as free trade most favoured nations national treatment and transparency as expounded in the various documents setting up the organization and its predecessor the GATT The second tier is the commitment to the set of rules governing trade for specific sectors such as agricultural and textile goods or information technology and telecommunications This is set out in China's accession protocol The third tier is the commitment to bilateral agreements which China signed with her major trading partners Their support is mandatory before China can be admitted to the WTO and therefore she has to satisfy each of them through elaborate bilateral negotiations This handbook highlights the important commitments that China has made to the international community and analyzes the potential impact of such commitments on China Part I of the book outlines China's commitments to convert her economy from a centrally planned one to a free market one as far as cross border movement of goods services and personnel is concerned It reproduces China's commitments in a tabular format to facilitate reading and is supplemented with brief references to WTO regulations where appropriate so that readers get to know how China's commitments relate to WTO obligations Part II examines the impacts of China's WTO membership as a whole and on her specific economic sectors Part III consists of Tables and Figures selected from a Report compiled by the US General Accounting Office presenting some of the Office's analysis and findings of China's commitments on WTO accession Appendix 1 lists all the legal instruments pertaining to China's accession to the WTO Appendix 2 reprints the Protocol of China's Accession China's schedule of commitments on services rearranged in a format more comprehensible to the general reader is included as Appendix 3 so that concerned readers can find out for themselves how their professions may be affected Appendix 4 reprints the GATS Services Sectoral Classification GNS W 120 and part of the CPC Provisional version This appendix is attached to facilitate readers to check whether their specific professions which are spelt out in 3 6 digit codes are included in Chinese commitments

Handbook on China's Wto Accession and Its Impacts Cheong Ching, Hung Yee Ching, 2003 This handbook highlights the important commitments that China has made to the international community and analyzes the potential impact of such commitments on China Part I of the book outlines China's commitments to convert her economy from a centrally planned one to a free market one as far as cross border movement of goods services and personnel is concerned It reproduces China's commitments in a tabular format to facilitate reading and is supplemented with brief references to WTO regulations where appropriate so that readers get to know how China's commitments relate to WTO obligations Part II examines the impacts of China's WTO membership as a whole and on her specific economic sectors Part III consists of tables and figures selected from a report compiled by the US General Accounting Office presenting some of the

Office's analysis and findings of China's commitments on WTO accession Appendix 1 lists all the legal instruments pertaining to China's accession to the WTO Handbook on China's Accession to the WTO and Business Opportunities Or the World Ching Cheong, 2002 China's Implementation of the Rulings of the World Trade Organization Weihuan Zhou, 2019-10-03 Amid the ongoing crisis surrounding the WTO China's role and behaviour in the multilateral trading system has attracted overwhelming attention This timely monograph provides the first comprehensive and systemic analysis of China's compliance with the rulings of the WTO's dispute settlement mechanism DSM It covers all the disputes in which China has been a respondent during its 17 year WTO membership and offers a detailed discussion of China's implementation of adverse WTO rulings its approaches to settling WTO disputes the possible explanations for such approaches and post compliance issues The book shows how China has utilised the limitations and flexibilities of WTO rulings to ensure that its implementation of the rulings not only delivers adequate compliance but also maintains its own interests Overall this book argues that the issues relating to the quality of China's compliance and post compliance practices concern the loopholes within the DSM itself which may be utilised by all WTO Members However despite the loopholes China's record of compliance suggests that the DSM has been largely effective in inducing compliance and influencing domestic policy making It is therefore in the interest of all WTO Members and other stakeholders to protect the DSM as the crown jewel of the multilateral trading system

China and the WTO Esther Lam, 2009-10-08 Joining the World Trade Organization WTO enables China to reform its legal order and to move towards a system incorporating major principles of the rule of law The WTO also serves as an external impetus that guides contemporary Chinese legal reform and orients it in ways that domestic forces alone could not achieve and sustain Much discussion on the WTO and the Chinese legal system has focused on the issue of compliance whether the Chinese legal system has the capacity to fulfill China's WTO accession commitments The focus of this work is less concerned with compliance issues per se but rather with the extent to which the WTO's requirements vis vis China actually affect the Chinese legal system The fine difference between the two approaches lies in the fact that efforts by the Chinese government to meet its WTO obligations necessarily impact the Chinese legal order and its way of functioning even if their end results may or may not lead to full compliance with what is required of it by the WTO This timely work exposes many behind the scene dealings and relies on valuable information that is not publicly available Not only does it preserve for the historical record important details of the Chinese WTO accession it also sheds light on the travaux préparatoires of China's accession agreement and the negotiation history of important issues some of which remain relevant and highly contentious today As expressed by WTO Director General Pascal Lamy in his foreword to the book through this work Esther Lam succeeds in demonstrating how WTO membership can benefit both the acceding country and the wider WTO family of nations

Economic Reform And Cross-strait Relations: Taiwan And China In The Wto Julian Chang, Steven M Goldstein, 2007-07-26 This book provides a discussion of the general impact of WTO membership on both sides of the Taiwan

Strait and addresses the political and economic impact on cross Strait relations of common membership The book begins with an introduction which analyzes the state of cross Strait economic and political relations on the eve of dual accession to the WTO and briefly introduces the chapters which follow The first chapter discusses the concessions made by both sides in their accession agreements and is followed by two chapters which describe the manner in which the Taiwan economy was reformed to achieve compliance as well as the specific restrictive trade regime that was put into place to manage mainland trade The next two chapters deal with the implications of that restrictive trade regime for the Taiwan economy in Asia and with the nature of the interactions between the two sides within the WTO The final four chapters of the volume examine the impact of membership on four sectors of the economy finance agriculture electronics and automobiles There is a post script which briefly covers developments since the chapters were completed

The Rise of China and International Law

Congyan Cai,2019 The rise of China signals a new chapter in international relations and international law How China interacts with the international legal order namely how China utilizes international law to facilitate and justify its rise and how international law is relied upon to engage a rising China has invited growing debate among academics and those in policy circles This book for the first time provides a systematic and critical elaboration of the interplay between a rising China and international law

Regionalism in International Investment Law Leon Trakman,Nicola Ranieri,2013-03-07

Regionalism in International Investment Law provides a multinational perspective on international investment law In it distinguished academics and practitioners provide a critical and comprehensive understanding of issues in a field which has grown exponentially in its importance particularly over the last decade focusing on the European Union Australia North America Asia and China The book approaches the field of foreign direct investment from both academic and practical viewpoints and analyzes different bilateral regional and multinational agreements often yielding competing perspectives The academic perspective yields a strong conceptual foundation to often misunderstood elements of international investment law while the practical perspective aids those actively pursuing foreign direct investment in better understanding the landscape identifying potential conflicts which may arise in more accurately assessing the risk underlying the issues in conflict and in resolving those issues Thorny issues relating to global commerce sovereignty regulation expropriation dispute resolution and investor protections are covered depicting how they have developed and are applied in different regions of the world These different treatments ensure that readers are able grasp the subject matter at multiple levels and provide a comprehensive overview of developments in the field of foreign direct investment

China's Free Trade Agreement Strategies Francine

Hug,2024-12-04 This book delves into the intriguing paradox of China's position in international trade law Although China is an active member of the World Trade Organisation WTO engaging in substantial trade tensions with trading partners may also arise In this context the book explores the legal principles informing Chinese Free Trade Agreements FTA and aims to answer the pivotal question What drives China's FTA strategies With unique analytical methods and a novel theoretical

framework this book sheds light on China's FTA strategies challenging prevailing notions about State intervention in the economy and offering a nuanced perspective on China's position in the world trading system By exploring how Chinese FTAs align with developmental State and socialist market economy principles the book contributes significantly to the fields of international economic law generally and Chinese law specifically Readers especially those interested in international trade law and China's economic policies will benefit from gaining a deeper understanding of the principles guiding China's FTA strategies and their contrast with leading liberal regimes like the WTO the United States and the European Union This thought provoking and pioneering book presents a fresh perspective on China's role in the global trade landscape It is thus an essential resource for anyone curious about the interaction between China's distinctive political economy and the transforming international economic order

The EU, the WTO and China Francis Snyder, 2010-09-02 This book presents a new theoretical framework for understanding the regulation of international trade For this purpose it analyses a series of integrated studies of relations between the EU the WTO and China It consists of three main parts Part I introduces the basic concepts It surveys the literature on law and globalisation introduces the concept of sites of governance and the theory of global legal pluralism and sketches the foundations of global legal pluralism It shows that each site of governance has both a structural dimension consisting of institutions norms and dispute resolution processes and a relational dimension comprising its relations with other sites of governance The totality of sites of governance constitutes a new form of global legal pluralism Part II analyses global legal pluralism in action in relations between the EU the WTO and China It examines the construction of relations between sites ways in which relations between sites give rise to new legal concepts or transform the character of rules the tension between regionalism and international integration and the governance of international production networks It emphasises the reciprocal interaction between the structural features and the relational features of sites Part III explores new directions in global legal pluralism It first analyses regional trade agreements as a way of creating new sites of governance focusing on agreements involving China Then it considers how to enhance ethical values in international trade regulation Based on an institutional analysis of relations between the WTO and other sites of governance it proposes ways in which global legal pluralism can be used to reform the WTO today the predominant institution in the regulation of international trade including trade between the EU and China

Thirty Years of China-U.S. Relations Sujian Guo, Baogang Guo, 2010-01-01 This book examines structural factors ideas institutions issues and challenges that have shaped China U S relations in the past thirty years as well as the recent changes in the global geostrategic landscape and economic interdependence that have significant impacts on the bilateral relations into the 21st century

China's Trade Policy on International Air Transport Chrystal Zhang, Kareem Yarde, 2020-08-09 This book is a political economic analysis of China's transformation to become a global aviation power It aims to identify the driving forces that have shaped China's ever evolving international air transport policy direction and goals in the past four decades and further determines how and to

what extent these driving forces have shaped China's considerations and strategies when executing its policy goals through bilateral air services negotiations. The findings reveal that China's international air transport policymaking has remained in the domain of the country's aviation regulator which has enjoyed an exclusivity to exercise its power on the air transport sector. The book argues that China's international air transport policy direction is in alignment with the country's overall strategic mission and its goal is set to support the country's endeavour to realise the China dream. It concludes that factors at all levels interact with each other with a far reaching impact on the country's policy direction and goal setting however these factors are constrained by time and circumstances. The book is a must read for a wide array of audiences including but not limited to scholars and industry professionals who have an interest in China's political economy policymaking international trade government behaviour corporate political activities air transport aviation liberalisation and bilateral negotiations.

The Employment Impact of China's WTO Accession A. S. Bhalla, Shufang Qiu, S. Qiu, 2003-11-20. The book explores the macroeconomic and sectoral employment implications in agriculture industry and services of China's World Trade Organisation accession. It argues that while short run employment losses may occur in the longer term China will be able to generate additional employment particularly in the tertiary sectors and that it can maintain its comparative advantage in labour intensive exports by relocating production from high cost coastal areas to the hinterland with abundant supply of cheap labour. It also argues that although China is likely to benefit in the long run in the short and medium term China is likely to face enormous problems including increased unemployment as weaker links cease to be protected by tariffs and the problem of restructuring state owned enterprises.

Korea and East Asia Rüdiger Frank, John Swenson-Wright, 2012-10-04. This book critically addresses the potential of the liberal concept of collective security to provide a solution to conflict in East Asia with a focus on the Korean peninsula.

The Competitiveness of the Chinese Textile Apparel Manufacturing Industry Lizette Smook, 2005. A thoroughly researched assessment of the Chinese TAM industry's requirements and necessary actions for attaining and sustaining global competitiveness in the wake of entry to the WTO. The author is currently the Asia Regional Technical Manager of Next Asia Ltd and intimately involved with all aspects of the TAM industry. This book is an essential tool for all who have an interest in China's current trade growth.

China's Challenge to US Supremacy John G. Glenn, 2017-02-27. This book analyzes China's development in the wider context of the global trade investment security knowledge and production regimes established by the United States. It argues that although China has thus far been able to enjoy rapid growth within this global architecture it will have to deal with a more challenging external environment as other states react to its rise. More specifically it is facing growing pressure to realign its currency a greater number of trade investment and intellectual property disputes a more hostile security environment and exclusionary regional trans Pacific and trans Atlantic trade agreements. It is also being confronted by an array of internal issues from an ageing population and weaknesses in the high tech sector to over reliance on foreign companies for exports non performing loans and a burgeoning

state debt This in turn has led an increasing number of firms to relocate to other countries For the time being the author concludes China's global ambitions and challenge to US supremacy will have to be scaled back This insightful work will appeal to students and scholars of China's politics economy and development
