Obstacles to Fairness in Criminal Proceedings John D Jackson, Sarah J Summers, 2018-03-22 This volume considers the way in which the focus on individual rights may constitute an obstacle to ensuring fairness in criminal proceedings The increasingly cosmopolitan nature of criminal justice forcing legal systems with different institutional forms and practices to interact with each other as they attempt to combat crime beyond national borders has accentuated the need for systems to seek legitimacy beyond their domestic traditions Fairness expressed in terms of the right to a fair trial in provisions such as Article 6 of the European Convention on Human Rights has emerged across Europe as the principal means of guaranteeing the legitimacy of criminal proceedings The consequence of this is that criminal procedure doctrines are framed overwhelmingly in constitutional terms the protection of defence rights is necessary to restrict and legitimate the state s mandate to prosecute crime Yet there are various problems with relying solely or predominantly on defence rights as a means of ensuring that proceedings are fair or legitimate and these issues are rarely discussed in the academic literature In this volume scholars from the disciplines of law philosophy and sociology challenge various normative assumptions underpinning our understanding of fairness in criminal proceedings

Heffernan, John Kleinig, 2004-10-27 The various essays in this volume explore the development of ideas of corruption employing a range of disciplinary approaches Although we are accustomed to think of corruption as the misuse of public office for private gain corruption has its deeper roots in the idea of a standard that has been eroded That standard however need not be construed idealistically much of what is asserted to be corruption takes the form of a departure from conventional standards In inveighing against corruption therefore it is necessary first to examine the presumptions that underlie its imputation As well as exploring the ethical issues that must be confronted in identifying corruption the authors also address some of the ethical issues that challenge attempts to root out corruption *Witchcraft Accusations from Central India* Helen Macdonald, 2020-11-22 This book unravels the institutions surrounding witchcraft in the central Indian state of Chhattisgarh through theoretical and empirical research on witchcraft violence and modernity in contemporary times The author pieces together fragments of stories gathered utilising ethnographic methods to examine the meanings associated with witches and witchcraft and how they connect with social relations gender notions of agency law media and the state The volume uses the metaphor of the shattered urn to tell the story of the accusations punishment rescue and the aftermath of the events of the trial of women accused of being witches It situates the onh or witch as a key elaborating symbol that orders behaviour to determine who the socially included and excluded are in communities Through the personal interviews and other ethnographic methods conducted over the course of many years the author delves into the stories and practices related to witchcraft its relations with modernity and the relationship between violence and ideological norms in society Insightful and detailed this book will be of great interest to academics and researchers of anthropology development studies sociology history violence gender studies tribal studies and psychology It will also be useful for readers in both historic and contemporary witchcraft practices as well as policy makers

criminology history and law     *Jacques Ellul on Violence, Resistance, and War* Jeffrey M. Shaw, Timothy J. Demy, 2016-04-12 The last few decades seem to have ushered in new levels of violence challenging the notion that our globalized interconnected world offers increased prospects for cooperation and peace Many philosophers and theologians have offered various reasons for why this might be so but none has come so close as the French philosopher Jacques Ellul to providing a comprehensive explanation for many of the pitfalls inherent in increasing levels of technological advance The chapters in this book explore the phenomena of violence terrorism and war through the lens of Ellul's thought Readers unfamiliar with Ellul will find as much to consider in these chapters as those who have studied Ellul extensively and for both the novice and the expert this book offers an opportunity to both evaluate and reevaluate Ellul's extensive thought on matters of importance to contemporary society

*Leading the Police* Kim Stevenson, David Cox, Iain Channing, 2018-03-12 In 2015 the College of Policing published its Leadership Review with specific reference to the type of leadership required to ensure that the next generation of Chief Constables and their management approach will be fit for purpose Three key issues were highlighted as underpinning the effective leadership and management of contemporary policing hierarchy culture and consistency Yet these are not just relevant to modern policing having appeared as constant features implicitly and explicitly since the creation of the first provincial constabularies in 1835 This collection reviews the history of the UK Chief Constable reflecting on the shifts and continuities in police leadership style practice and performance over the past 180 years critiquing the factors affecting their operational management and how these impacted upon the organization and service delivery of their forces The individuality of Chief Constables significantly impacts on how national and local strategies are implemented shaping relationships with their respective communities and local authorities Importantly the book addresses not just the English experience but considers the role of Chief Constables in the whole of the United Kingdom highlighting the extent to which they could exercise autonomous authority over their force and populace The historical perspective adopted contextualises existing considerations of leadership in modern policing and the extensive timeframe and geographical reach beyond the experience of the Metropolitan force enables a direct engagement with contemporary debates It also offers a valuable addition to the existing literature contributing to the institutional memory of UK policing The contributors represent a range of disciplines including history law criminology and leadership studies and some also have practical policing experience

**Profiles, Probabilities, and Stereotypes** Frederick Schauer, 2009-07-01 When the law makes decisions about groups based on averages the public benefit can be enormous On the other hand profiling and stereotyping may lead to injustice As Schauer argues there is good profiling and bad profiling If we can effectively determine which is which we stand to gain not lose a measure of justice

Security and Privacy John Kleinig, Seumas Miller, Peter Mameli, Douglas Salane, Adina Schwartz, 2011-12-01 This study is principally concerned with the ethical dimensions of identity management technology electronic surveillance the mining of personal data and profiling in the context of transnational crime and global terrorism The ethical challenge at the heart of this study is to establish an acceptable and sustainable equilibrium between two central moral values in contemporary liberal democracies namely security and privacy Both values are essential to individual liberty but they come into conflict in times when civil order is threatened as has been the case from late in the twentieth century with the advent of global terrorism and trans national crime We seek to articulate legally sustainable politically possible and technologically feasible global ethical standards for identity management technology and policies in liberal democracies in the contemporary global security context Although the standards in question are to be understood as global ethical standards potentially to be adopted not only by the United States but also by the European Union India Australasia and other contemporary liberal democratic states we take as our primary focus the tensions that have arisen between the United States and the European Union
